AQUARIUS

AQUARIUS is an actuator designed for applications where force, throughput, durability and reliability are required – all in a compact form factor. It is ideal for applications that require an independent Z-axis for testing handheld devices and offers optimal performance.

This solution is suitable for various applications where precision and high dynamic are important. With a total stroke of 10 mm, it has a peak force of 120 N and a continuous force of 29.5 N, ensuring robust performance in a variety of tasks.

Its impressive speed of up to 1 m/s and acceleration capacity of up to 30 g further enhance its usefulness in dynamic environments.

Lifetime

> 1 billion cycle

Peak force

120 N

Characteristics

- Total stroke: 10 mm
- Continuous Force: 29.5 N
- Speed: Up to 1 m/s
