

ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

MIL-STD-1553

Single function (**RT Validated**) 1553 operates either as a Bus Controller, Remote Terminal, or Bus Monitor.

The MIL-STD-1553 multi function interface cards are compatible with all common variations of MIL-STD-1553 and provides a wide range of features normally found only on full size testers. The card can operate simultaneously as a Bus Controller (BC) and/or multiple (up to 32) Remote Terminals (RT), or as a Triggerable Bus Monitor. The card supports error injection and detection.

Express Card

The EXC-1553ExCard/Px and EXC-1553ExCard/PxS are advanced (up to 2 channel) MIL-STD-1553 interface cards for Express Card equipped computers

PCMCIA

The EXC-1553PCMCIA/Px and EXC-1553PCMCIA/PxS are advanced (up to 2 channel) MIL-STD-1553 interface cards for PCMCIA (Type II) equipped computers

PCI Express

The EXC-4000PCIe is an advanced Multi Protocol card and together with the M4K1553Px or M4K1553PxS module gives you a MIL-STD-1553 test and simulation board for the PCI Express bus.

PCI

The EXC-4000PCI is an advanced Multi Protocol card and together with the M4K1553Px or M4K1553PxS module gives you a MIL-STD-1553 test and simulation board for the PCI bus.

cPCI

The EXC-4000cPCI/xx together with the M4K1553Px or M4K1553PxS module is an advanced MIL-STD-1553 test and simulation board for Compact PCI systems

PC/104 Plus

The EXC-4000P104Plus/xx together with the M4K1553Px or M4K1553PxS module is an advanced MIL-STD-1553 test and simulation board for PC/104 Plus systems

PMC & ccPMC

The EXC-1553(cc)PMC/Px or EXC-1553(cc)PMC/PxS are multi-channel (up to four) MIL-STD 1553 interface boards for convection or conduction cooled PCI Mezzanine Card compatible computers.

VME / VXI

The EXC-4000VME/xx together with the M4K1553Px or M4K1553PxS module is an advanced MIL-STD-1553 test and simulation board for VME and VXI host computers.

ccVME 16 channels

The EXC-1553ccVME/Px is a multi-channel (up to sixteen) MIL-STD-1553 interface board for conduction cooled VME systems.

ccVPX

The EXC-4500ccVPX is an advanced conduction cooled Multi Protocol card and together with the M4K1553Px or M4K1553PxS module gives you a MIL-STD-1553 test and simulation board for VPX compatible systems.

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
