Utility Module — IQS-9600

Secures and standardizes the integration of couplers, isolators, filters and Bragg gratings into the IQS-600 Integrated Qualification System.

Technical information

SPEC SHEET

MANUAL

See all resources

Key features

- Single-slot or dual-slot configurations
- Standard singlemode couplers: 1 x 2, 1 x 4, 1 x 8
- Coupling ratios for 1 x 2 couplers: 50/50, 25/75, 1/99, 5/95, 10/90
- Custom configurations available upon request

Applications

- Packaging specific devices, such as couplers and filters, for testing purposes inside the IQS-600 platform

Securing Passive Optical Components

The IQS-9600 Utility Module secures and standardizes the integration of optical couplers, isolators, filters and Bragg gratings into the IQS-600 Integrated Qualification System.

Artisan Technology Group - Quality Instrumentation ... Guaranteed | (888) 88-SOURCE | www.artisantg.com

For simple test setup development, EXFO provides singlemode couplers often required in monitoring, EDFA testing and other fundamental applications. Available optical coupler versions include 1 x 2 (coupling ratios of 50/50, 25/75, 1/99, 5/95 or 10/90), 1 x 4 and 1 x 8. A polished-angle (EA) or non-angled (EI) connector, compatible with EXFO's universal interface, is also included.
