

ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

64K for $1495

The most cost effective products for your microcomputer.

RM64
64K bytes

THE EXTENSYS RM64 MEMORY BOARD provides the most cost effective system memory found in the industry. The RM64 provides this because of our low cost per byte when compared to our competition plus the increased reliability of a single board over multiple boards containing less memory. The board is S-100 bus compatible making it usable in over a dozen different microcomputer systems including ALTAIR and IMSAI. The RM64 is available in four configurations: 16K, 32K, 48K, or 64K bytes of memory all on ONE board. The board is completely assembled, checked out and burned in for over 100 hours prior to shipment. This complete testing procedure allows Extensys to provide a one year warranty on parts, labor and materials (assuming no misuse of the board occurs).

On board hardware is provided for:

- **Individual memory bank address selection in 8K byte increments;**
- **Complete dynamic refresh logic without loss of processing efficiency while programs are running;**
- **Board select logic which allows more than one 64K byte board per system;**
- **S-100 bus compatibility including on-board voltage regulator;**
- **Memory overlap which allows memory sharing the same address space to coexist in the same system;**
- **Write protection in 16K blocks; and**
- **Fully socketed for 64K allowing 16K, 32K, and 48K versions to be upgraded at a later date.**

Delivery of the RM64 is 15 to 30 Days upon receipt of order. Prices for the RM64 include shipping and handling prepaid in the continental United States.

Extensys Corporation is also announcing several other new, highly cost effective products. The FOS100 Floppy Disk System is based upon the Extensys File I/O Board and incorporates either one or two dual PerSci Model 277 floppy disk drives. The FOS100 System also includes the Extensys Multiprocessor Operating System, EMOS. EMOS provided many large system capabilities, such as multi-processor, multi-user operation and individual file privacy based on user supplied passwords. The MM16 Memory Manager interfaces to RM64 memory boards to create a megabyte or more of memory and adds full DMA capability to the FOS100 Floppy Disk System.

Extensys Fully Assembled and Tested Prices

RM64-16	$ 595	FOS100-2	$2880
RM64-32	$ 895	FOS100-4	$4680
RM64-48	$1195		
RM64-64	$1495	MM16	$ 295
16K Upgrade	$ 375
