Trade-up Program

Trade 15 external power supplies for one PS 124

Extron provides 12 volt power supplies with many products, but when power supplies are shared, the unused power supplies are tossed aside and could end up in a landfill. Extron customers have asked for a way to trade in these brand new power supplies and our Power Supply Trade-up Program is an excellent way to avoid unnecessary waste.

We have an exclusive Power Supply Trade-up Program for Extron Customers. For any combination of fifteen qualifying 12 volt PS Series power supplies returned to us on an authorized RMA, we will ship to the customer a new PS 124 Multiple Output 12 Volt DC Power Supply. The PS 124 features eight 12 volt DC outputs, providing a total of 4 amps across all outputs with no per-port current limitations. This power supply is designed to take the place of several individual PS Series desktop power supplies, which frees up space in the equipment rack. Additionally, the PS 124 is UL 2043 rated when used with the optional Flexible Conduit Adapter Kit for installation into a ceiling space.

Five PS Series desktop power supplies, part numbers 28-331-07LF, 28-331-57LF, 28-327-07LF, 28-327-27LF, 28-327-57LF, are eligible for this program. These part numbers can be found at the top of the product label.

PS 124

12 VDC, 50W Power Supply Featuring ZipClip

- **Provides eight 12 volt DC outputs, 4.0 amps total, using eight 2-pin captive screw connectors**
- **No per-port amperage limitation**
- **Plenum-rated when used with optional Flexible Conduit Adapter Kit, part #70-228-02**
- **Dual-color status LED for normal operating and overload conditions**
- **Rack-mountable 1U, quarter rack width, metal enclosure**
- **Extron-designed 100-240 VAC, 50/60 Hz, international power supply**
