Gilson Sampler Controller Keypad

The Liquid Handlers are available with either 735 Sampler Controller Software or with the Keypad Controller and the 720 software.

For installation of the 735 Sampler Controller Software, refer to the relevant User's Guide.

The Sampler Controller Keypad supplied in the parts compartment of the packing assembly controls the liquid handler and connected pumps.

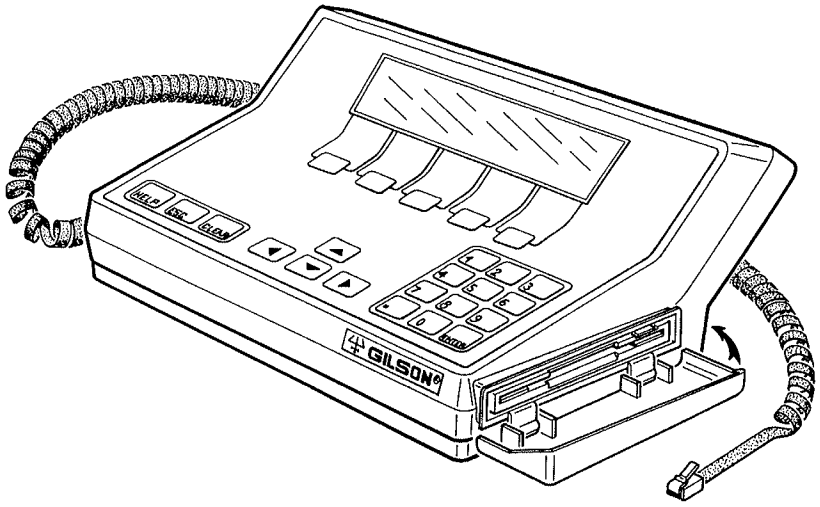

The keypad is connected to the instrument via an RS232 coiled cable. Characters are displayed in white on a blue background.

The keypad consists of:

- an eight-line, 40 character visual display unit,
- five menu soft-touch keys just below the display unit,
- a numerical keypad with an ENTER soft-touch key,
- four cursor direction soft-touch keys,
- a group of three function soft-touch keys , HELP, ESC., CLEAR.
- a 3.5" diskette drive with protective cover.

Type of diskettes used are 3.5" high density diskettes.

For information on using the keypad refer to the software manual.
