VULCAN Finned Strip Heaters

A finned heater or strip heater from Grainger provides dependable surface-contact heating, and is available in a wide range of wattages to handle many applications. Steel channel strip heaters are great for applications requiring low-profile designs.

VULCAN Finned Strip Heaters

Ideal for forced air systems, heat pumps, tempering air in A/C systems, convection heating, incubators, drying ovens and food warming. Seamless 304 stainless steel tube provides the combination of physical strength and resistance to high temps. and chemical corrosion. Vulcan adds heat-dissipating fins to the outer sheath to provide efficient heating. UL Recognized.

VULCAN
