

ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

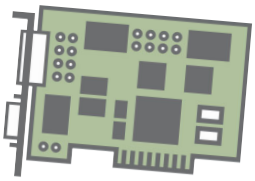

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

CIF – Communication Interface

PC cards as fieldbus interface

- All PC board formats can be supplied
- Identical ‘easy to use’ application interface for all leading fieldbusses
- One driver for all fieldbusses and board types
- One configuration software
- ‘Plug and play’ kits for SCADA and Soft SPSen of all leading manufacturers

Fieldbus integration for PC-based systems

Whether as Master or Slave, fieldbus systems have been proven themselves excellently in PC-based automation. For more than 10 years, the CIF communication interface cards from the Hilscher Company are used successfully in the most varied areas of application and are now a standard in the market.

PC cards in all formats

With the CIF communication interface, the user will have a unified standard for all the fieldbus systems on different hardware platforms.
We supply our PC communication cards with PC/104 respectively PCI busses in standard, PC/104+, PCI-104, Compact PCI or PMC format respectively as PCMCIA card for all leading fieldbus systems.

hilscher
COMPETENCE IN COMMUNICATION

CIF – Communication Interface

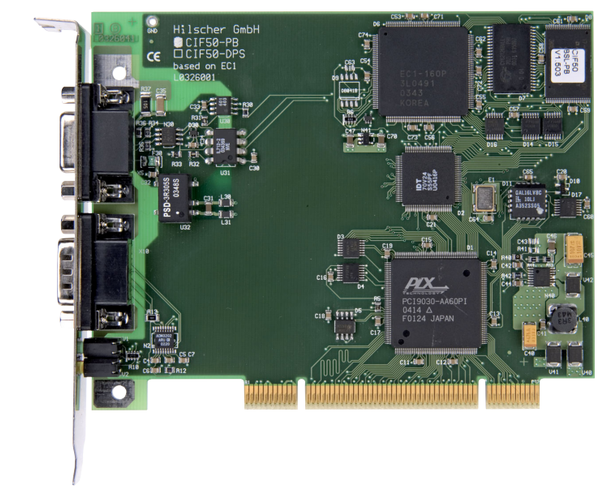

Communication for PC based Automation

Fieldbus systems made easy

With a fieldbus card as a fieldbus Master, one always has the current process image of all configured Slave devices.
With a CIF card for fieldbus Slave communication, the Dual port memory of the card serves as a process image which can be accessed from both sides at the same time.
In both variants the user program need not concern itself with the actual fieldbus communication as this task is automatically undertaken by the CIF card, thanks to its own communication processor.

CANopen
CC-Link
DeviceNet
INTERBUS
PROFIBUS
Schneider Alliances
sercos the automation bus

PCI | PCMCIA | Compact PCI | PC/104 | PC/104+ | PCI-104 | PMC-Modul

All card formats

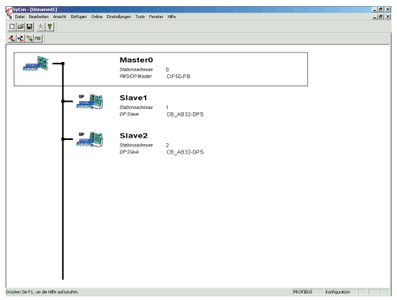

Whether Soft programmable control system, CNC control, Industry terminal, decentralized I/O module or intelligent drive, every application based on a PC standard can be equipped with a CIF card for industrial communication.

Diagnostic Interface

Serial RS 232 Interface for configuration and online diagnostic.

LED status displays

The operational condition of the CIF card and the communication activities on the fieldbus interface are displayed.

One configuration for all fieldbusses

The SyCon system configurator allows the uniform configuration of the communication relationship between fieldbus Slave devices and the Master.
The configuration of the communication relationship to the individual Slave devices and the respective fieldbus Master are stored permanently down in the configuration memory of the CIF card.

Microsoft Windows CE
Linux
VxWorks
OLE for Process Control

Drivers

The universal CIF Device Driver and the function library DRV-TKIT present the basis for the execution of the fieldbus integration on the application level independently of the selected hardware platform. An integration once developed can then be used with every available fieldbus system. Drivers for many Soft PLC´s are available.

The CIF OPC-Server is available for every fieldbus standard and all Windows-based operating systems.
There are finished drivers available for many visualizing systems and with these the CIF cards can be accessed directly.

CIF – Technical Information

Special Developments

Do you need a special card with a special protocol?
We are in a position to meet your special needs. Challenge us ...

Technical Data

CANopen	**Slave**	**Master**
		126 Nodes

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.

Learn more!

Visit us at **artisantg.com** for more info on price quotes, drivers, technical specifications, manuals, and documentation.

Artisan Scientific Corporation dba Artisan Technology Group is not an affiliate, representative, or authorized distributor for any manufacturer listed herein.

We're here to make your life easier. How can we help you today?
