SampleMax - An Economical Solution for All Your Sampling Needs

The SampleMax is a compact, state-of-the-art, universal sample compartment from HORIBA Jobin Yvon - the world leader in optical spectroscopy. It is ideally suited for characterizing thin films, liquids and solid samples by lending itself very easily to a wide range of transmission, reflectance, absorption, fluorescence and photoluminescence measurements. Designed to work as a stand-alone unit or with any one of the HORIBA Jobin Yvon high performance spectrometers, this sample chamber offers superior performance and versatility - unmatched in today's industry:•

- Ideal for reflectance, transmission, photoluminescence and fluorescence measurements.
- Wide selection of interchangeable optics for operation in the visible, UV and IR.
- Optical design optimized for low stray light and negligible ambient light leaks.
- Interchangeable holders for solid, liquid and thin film samples.
- External thumb wheel allows easy switch between reflection and transmission/absorption measurements.
- Modular design allows direct coupling to spectrometer slits, light sources, fiber optic bundles and detectors.
- Wide range of accessories such as polarizers, variable slits, filters and eucentric goniometers.

Artisan Technology Group - Quality Instrumentation ... Guaranteed | (888) 88-SOURCE | www.artisantg.com

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
