PRINTABLE PRODUCT DETAILS

Features and Benefits

Mix and Match Your Stackable Switches
This module lets you connect the 3Com® SuperStack® II Switch 1100s and SuperStack 3 Switch 3300s in any combination to boost throughput, share downlink resources, and ease management. A low-cost alternative to deploying a Gigabit Ethernet backbone, the matrix module provides an ultra-fast 1 Gbps link between switches.

- Connected switch stack can share downlinks
- Delivers high-performance switch-to-switch connections, while conserving ports
- Manage an entire switch stack as one virtual switch
- Support for IEEE 802.1p/Q enables VLANs and Ethernet Class of Service
- Support for roving analysis across the stack provides greater RMON and traffic flow visibility
- Ultra-low latency (150 ns) and hardware flow control ensure top performance

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
