

Artisan Technology Group is your source for quality new and certified-used/pre-owned equipment

- FAST SHIPPING AND DELIVERY
- TENS OF THOUSANDS OF IN-STOCK ITEMS
- EQUIPMENT DEMOS
- HUNDREDS OF MANUFACTURERS SUPPORTED
- LEASING/MONTHLY RENTALS
- ITAR CERTIFIED SECURE ASSET SOLUTIONS

SERVICE CENTER REPAIRS

Experienced engineers and technicians on staff at our full-service, in-house repair center

*InstraView*SM REMOTE INSPECTION

Remotely inspect equipment before purchasing with our interactive website at www.instraview.com ↗

WE BUY USED EQUIPMENT

Sell your excess, underutilized, and idle used equipment. We also offer credit for buy-backs and trade-ins. www.artisanng.com/WeBuyEquipment ↗

Product Information

HP 5519A Laser Head and Receiver

Summary

The HP 5519A laser head, which is a component of the HP 5529A dynamic calibrator system, incorporates a helium-neon laser with a beam diameter of 6 mm (0.24 in). It has a wavelength accuracy of ± 0.1 ppm (± 0.02 ppm if calibrated to MIL-STD 45662). The HP 5519A uses HP's two-frequency laser technique that virtually eliminates the problems common to other laser designs, which result from beam intensity changes. The laser head uses a proven long-life laser tube.

The HP 5519A is configured with appropriate optics and system electronics to build a laser calibration system that meets the unique physical layout and measurement requirements of individual applications. The laser accuracy is ideal for machine calibration applications.

Features

- Helium-neon, two-frequency laser
- Fast warmup (less than 10 minutes, typically four minutes)
- Industry-leading reliability
- Highly-accurate, even over large distances
