HP Support document

HP Surestore 160EX series Optical Jukeboxes (80FX, 160EX, 160FX, 300MX, 320EX, 200FX, 400EX, 600MX and 700MX) - Overview

Product Description

HP SureStore medium-sized Optical Jukeboxes

The HP SureStore family of medium-sized optical jukeboxes provide storage capacities of up to 691.6 GB, supporting both rewritable and write-once-read-many (WORM) optical disk formats with up to 4 drives.

The medium-sized HP Optical Jukeboxes can be a competitive asset for businesses implementing medium-to-large document and image management solutions, e-records management; or businesses that are replacing microfiche, microfilm or paper-based data. HP StorageWorks magneto-optical jukeboxes are a safe, permanent way to archive huge amounts of information and keep it immediately accessible. A high-speed alternative to paper, tape or microfiche-based storage, these industry-standard systems accelerate the way mission-critical data is stored, retrieved and used.

Product Features

Feature	Description								
Model	80FX	160EX	160FX	300MX	320EX	200FX	400EX	600MX	700MX
Optical Drive Type	4X	8X	4X	14X	8X	4X	8X	14X	14X
Optical Drive Count	2	2	4	4	4	2	2	2	2
Media Slot Count	32	32	64	64	64	76	76	32	76
Data Capacity	Up to 691.6 GB								
Interface Type - Connector	SCSI-2 SE/HVDS:

	• HVDS - 68HD • SE - 50HD
Data Transfer Rates	• **Reads** (max. sustained) - 6.1 MB/s • **Writes** (max. sustained) - 3.1 MB/s • **Burst** (synchronous) - 10 MB/s
Supported Operating Systems	• HP-UX 10.20,11.00, 11.i, 11.2 • Windows NT 4.0 • Windows 2000 • Windows 2003 • Solaris • Linux • Tru64 • AIX

Features

- Provides storage capacities of up to: 691.6 GB, 4 multifunction drives, and 76 slots
- The newest model represents a 75% increase in storage capacity over the 5.2 GB jukeboxes; at a much lower cost per gigabyte
- When equipped with 14X drives, the jukebox reads every generation of MO media, including both read and write 2.6 GB, 5.2 GB and 9.1 GB
- A multifunctional optical jukebox that meets both short-term and long-term storage needs
- Supports both rewritable and write-once-read-many (WORM) optical disk formats
- Supports fibre channel, enabling increased distance and security options over SCSI via point-to-point bridges
- Optical jukebox fibre channel switch and bridge configurations facilitate permanent storage alternatives for SANs
