2020 Product Guide

Military & Aerospace Components at the Ready

MilesTek
an INFINITE brand

Your Military & Aerospace Interconnect Specialists

From high-volume production, to low-volume customized products, MilesTek is your source for military, aerospace, communications and industrial interconnect solutions.

Since 1981, MilesTek customers have come to expect more than just products- they expect answers & support that will help them solve all their installation or project questions.

With quick turnaround and same-day shipping for most of the high reliability products we carry, you can rely on MilesTek to help meet your project deadlines.

Markets We Serve:

- Commercial & Military Avionics
- Broadcast & DS3/Telecom
- Military and Industrial Networking
- Aerospace Communications

MilesTek Advantages:

- Large In-Stock Inventories
- Same-Day Shipping
- Prototype Development
- CAD Design Capabilities
- Multiple Testing Solutions
- Expert Technical Support
- ISO 9001:2015 Registered

Stocking over 10,000 Products Covering a Wide Breadth of Connectivity Needs:

- Coaxial Cable Assemblies and Harnesses
- Military Avionics/ MIL-STD-1553B
- Bulk Cable by the Foot
- Data Bus Couplers
- Custom Cable Assemblies, Panel Assemblies & Tools
- Twinaxial
- Triaxial
- LSZH Assemblies
- Connectors, Adapters & Terminators
- Switching Devices
- Rugged Ethernet, USB and Fiber Assemblies

TABLE OF CONTENTS

4 - 25 ..... MIL-STD-1553B

NEW PRODUCTS ADDED

• Data Bus Couplers - Box Style • Data Bus Couplers - Inline • Relay Devices • Data Bus Coupler Kits • Bus/Scope Test Cable Assemblies • 78 Ohm Twinax Bulk Cable Specs • 78 Ohm Twinax Cable Assemblies • TRB Terminators & RFI Dust Caps • TRB Connectors • TRB Adapters • Crimp Tools & Cable Splicing

26 - 28 ..... SUBMINIATURE

NEW PRODUCTS ADDED

• TRS Data Bus Couplers - Box Style • TRS 78 Ohm Twinax Cable Assemblies • TRS Subminiature Size Connectors • TRS Crimp Tools and Compatibility Information

29 - 32 ..... TWINAXIAL

• 100 Ohm Twinax Bulk Cable Specs • 100 Ohm Twinax Cable Assemblies • 100 Ohm Bus Terminators • 100 Ohm Twinax Connectors • 124 Ohm Twinax Bulk Cable Specs • 124 Ohm Twinax Cable Assemblies • 124 Ohm Twinax Connectors

34 - 38 ..... TRIAXIAL

• Bulk Cable Specs - 50 & 75 Ohm Triax • 50 Ohm Triax Cable Assemblies • 50 Ohm Triax Connectors • 75 Ohm Triax Cable Assemblies • 75 Ohm Triax Connectors

39 ..... D-SUB

NEW PRODUCTS ADDED

• Low Smoke Zero Halogen (LSZH) Cable Assemblies • DB9 - DB25 Male to Female Connectors • Field Termination Connectors

MilesTek

TABLE OF CONTENTS

ETHERNET ..... 40 - 43

• Low Smoke Zero Halogen (LSZH) Assemblies • Category Rated Keystone and Flange Mount Couplers • Industrial Ethernet M12 Assemblies • Industrial GigE Assemblies • IP67 Dual Use Outdoor Ethernet Assemblies • IP68 Ruggedized MIL RJ45 Assemblies and Components

NEW PRODUCTS ADDED

USB ..... 44 - 45

• 2.0 USB • 2.0 USB Waterproof Harsh Environment • 3.0 USB • 3.0 USB Industrial Harsh Environment • LSZH USB Cables • Waterproof USB

NEW PRODUCTS ADDED

SCSI/IEEE-488 GPIB 46

• Low Smoke Zero Halogen (LSZH) Assemblies • Ultra SCSI Cable Assemblies
• Premium IEEE-488 Cable Assemblies • Deluxe IEEE-488 Cable Assemblies
• Connectors

NEW PRODUCTS ADDED

AUDIO/VIDEO ..... 47 - 49

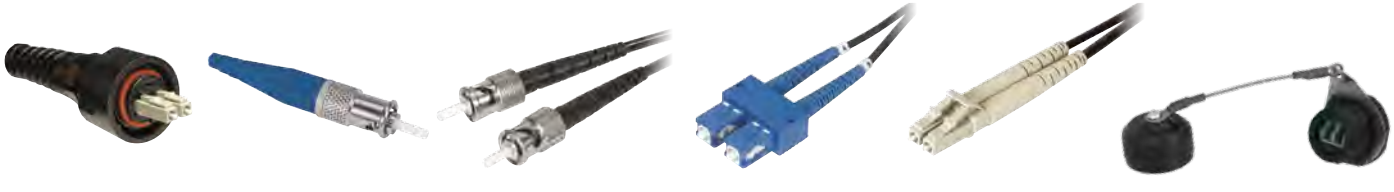

• High Speed HDMI Cable Assemblies • Premium DVI to HDMI • Mini HDMI
• Deluxe DVI-D with Ferrites • LSZH Angled Cable Assemblies

NEW PRODUCTS ADDED

FIBER OPTIC ..... 50 - 51

• Military Cable Assemblies • Multimode IP67 Cable Assemblies • Single mode IP67 Cable Assemblies • IP67 Connectors • Ruggedized IP68 Connectors and Receptacles

PATCH PANELS/POWER CORDS ..... 52 - 63

• Ethernet, USB, D-Sub, HDMI, Fiber Optic Rack Panels • Universal Master Rack Panels
• Universal Sub-Panels • Power Cords

Custom Bus Kits

MilesTek data bus coupler kits offer a complete solution to laboratory application requirements. Pre-assembled kits guarantee compatibility between various MIL-STD-1553B components. Custom data bus coupler kits are available.

Bus/Scope Application

See application chart (right). Bus/scope test cables are typically used in laboratory testing environments. Bus/scope test cables are used with an oscilloscope to split and analyze individual signals on a bus.

TRB Standard v. TRS Subminiature

TRB Standard Connectors

Standard (TRB) connectors are designed for extreme durability and heavy-use applications. TRB connectors are the most common interface size (same size as BNC/TNC series). This connector series is not recommended for weight-sensitive applications. The maximum outer cable diameter is 0.475 inches (large-body versions are available for larger cables).

TRS Subminiature Connectors

Subminiature (TRS) connectors are preferred in applications that require weight reduction, high packing density, and noise-free guarded circuits. TRS connectors can increase packing density to more than 240% compared to TRB standard connectors. The reduced size limits the maximum outer cable diameter to 0.250 inches.

Twinaxial Cable

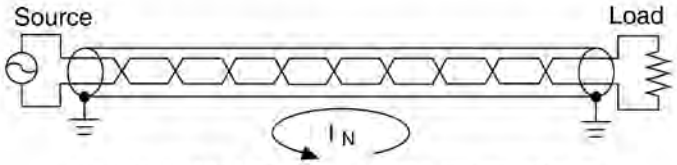

Description

Twinax cable is a two-conductor, twisted, balanced wire line with a specific impedance and a shielding braid around both wires.

Technical Information

The twisting of the two balanced signal-carrying conductor wires cancels any random induced noise voltage pickup, giving protection against any low-frequency magnetic noise passing through the copper braid. Twinax cable is shielded, insulated from the twisted signal carrying conductors.

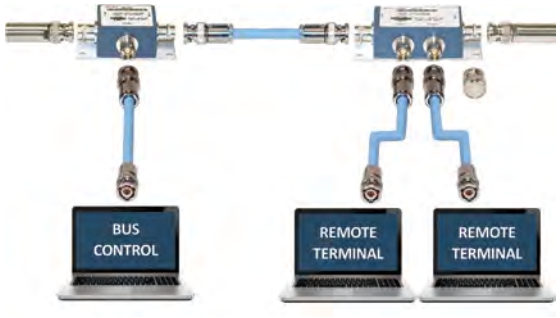

Twinax Cable Provides A Shield, Insulated from The Twisted Pair Signal Carrying Conductors

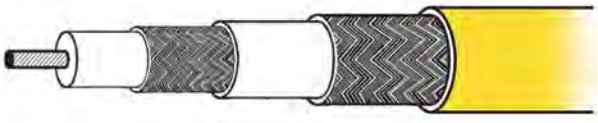

MilesTek's twinax cable design lowers cable losses by adding two dielectric fillers under the braid (separating the braid away from the signal pair), thereby lowering the leakage capacitance to ground. The coverage is improved to up to 93% by using more copper wire in the braid and weaving it tighter. This design also provides protection against ground loops and capacitive fields.

Applications

Twinax cables are a cost-efficient and effective option for short-range, high-speed, differential signaling applications. For this reason, twinax is best suited for low-frequency digital and video distribution systems, like connecting MIL-STD-1553 bus and stub devices. Twinax cable is most effective up to approximately 15 MHz, since it has higher transmission losses above this frequency.

Triaxial Cable

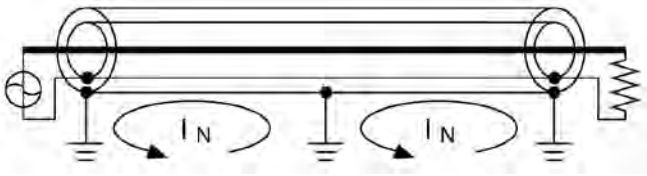

Description

Triax cable is coax cable with an additional outer copper braid (insulated from the signal carrying conductors) which acts as a shield protecting the enclosed coax conductors.

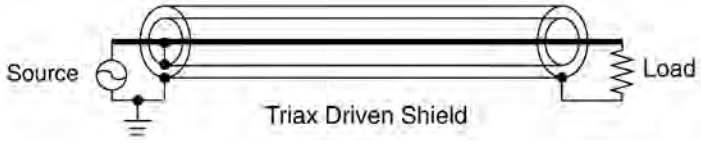

Technical Information

The outer braid is grounded and passes both ground loop and capacitive field noise currents away from the signal-carrying coax. This greatly improves the "signal-to-noise" ratio when compared to standard coax cable. In essence, triax cable provides additional shielding, insulated from the signal carrying coax.

Driven Shield

Triax cable is also used in "Driven Shield" (see diagram below) applications, where the inner conductor and the inner braid are driven in parallel at the transmitting end, and work against the outer braid which is insulated above ground. The inner braid creates a "Faraday" shield between the inner conductor and outer braid, as it is floating at the receiving end. Thus, the cable's distributed capacitance, cable losses and loading are greatly reduced.

Triax Driven Shield

Applications

Triax cables are effective for a broad range of applications, including high-frequency transducer data systems (where the distributed capacity in coax cable limits the data accuracy) and precision low-current measurements. Also, the two braids are useful as a low-impedance transmission line (approximately 12 ohms) to carry high-current pulses to low-impedance laser lamps or exploding bridge wire (EBW) ordinance systems.

1. SCOPE; CHANGES

The terms and conditions stated herein (this "Agreement") govern all sales of products or services ("products") by Infinite Electronics, Inc. (collectively, "we," "us," "our," or "seller") to you or the entity you represent ("you" or "buyer"). You represent to us that you are lawfully able to enter into contracts (e.g., you are not a minor) and that if you are entering into this Agreement for an entity, such as the company you work for, you represent to us that you have the legal authority to bind that entity. Unless otherwise agreed to in writing by seller's authorized agent, any terms and conditions contained in buyer's purchase order or any other document that are different from or in addition to these terms and conditions are objected to, are rejected, and will not be binding on us. By placing an order for products from us, or by accepting delivery of the products described on the applicable packing slip, bill of lading and/or invoice received with the products, you agree to be bound by and accept these terms and conditions of sale.
We may change the terms and conditions of this Agreement in our sole discretion by posting an updated version of these terms and conditions at this location; provided, however, that the terms and condition of this Agreement in effect as of the date of an applicable order shall continue to govern such order and the products purchased thereunder.

2. ORDER ACCEPTANCE

a) Your receipt of an email or other form of order confirmation does not constitute our acceptance of your order or a confirmation of an offer to sell.
b) We reserve the right, without prior notification, to limit the order quantity on any item and/or refuse service to anyone.
c) All orders are subject to review and acceptance by us. You agree to provide complete and accurate contact information in connection with any order submitted to us. Verification of information may be required prior to the acceptance of any order.
d) In the case of pre-stocked finished goods, order acceptance is designated by fulfilling the order. In the case of products requiring post-order processing (including but not limited to design, material purchase, manufacturing or test), order acceptance is designated by performing activities unique to the order.

3. ORDER CANCELLATION

a) Orders fully or partially processed by seller may not be cancelled by buyer.
b) Products not previously stocked as finished goods are both Non-Cancelable and Non-Refundable ("NC/NR"). NC/NR products include cable assemblies, special orders, custom orders, orders for non-standard products, products not customarily in stock, scheduled orders requiring special procurements, or orders for products requiring assembly or manufacturing activities prior to shipping (not stored in completed state) as well as purchased services such as special testing or product modifications.
c) In the event of cancellation or other withdrawal of an order for any reason and without limiting any other remedy as a result of such cancellation or other withdrawal, reasonable cancellation or restocking charges, which shall include all expenses then incurred and commitments made by seller, shall be paid by buyer. Buyer's requests to reschedule are subject to acceptance by seller in its sole discretion. Orders may not be rescheduled after the order has been submitted by seller to the shipment carrier.

4. PRICES

a) Orders are billed at the prices (in US dollars) in effect at the time of shipment.
b) Prices will be as specified within seller's website or as stated in seller's quote / proposal. If no period is specified, quoted prices will be applicable for thirty (30) days.
c) For catalog products, the website contains the most current catalog pricing and is the price reference for such orders. Pricing included in the catalog is for reference only and final pricing is determined by the published website price.
d) For non-catalog products and services, prices cited are based on current costs and are subject to reasonable adjustment on or after the date of acceptance of any purchase order to meet a rise or fall in such costs, as computed on the date of delivery.
e) Prices are subject to change without notice.
f) Prices are exclusive of taxes, impositions and other charges, including: sales, use, excise, value added and similar taxes or charges imposed by any government authority, international shipping charges, forwarding agent's and broker's fees, bank fees, consular fees, document fees and import duties.

5. TERMS OF PAYMENT

a) All payments must be in US Dollars, or will be converted to US Dollars using seller's standard exchange rate at the time of purchase.
b) MasterCard, VISA and American Express credit cards, purchase cards and major bank debit cards are accepted. Payment via net thirty (30) days is available to businesses, schools and agencies or as otherwise specified by seller subject to credit approval.
c) For International Orders, MasterCard, VISA, and American Express credit cards are accepted. Payment via open credit account with Net thirty (30) days may be established for companies having three U.S. references accepted to seller. Prepaid Wire Transfer: You can wire the funds to our bank. We will contact you with the total amount, which will include shipping charges and a $40 wire transfer fee. Orders will not be accepted until funds have been received in full and the Purchase Order (PO) has been received. Notwithstanding anything to the contrary in this Agreement, seller may add or remove payment options in seller's sole discretion.
d) Buyer acknowledges that seller has the right to reassess buyer's creditworthiness from time to time. To the extent such is in accordance with law, in the event there is a decline in buyer's creditworthiness, seller may, upon thirty (30) days written notice, revise the payment terms between the parties. Upon request, buyer shall provide financial data evidencing the buyer's worth in order for seller to determine the creditworthiness of buyer. Such information shall include, but not be limited to, annual reports, balance sheets, and bank records.
e) If buyer is delinquent in its payment obligations, without prejudice to any other remedies available to it by law or in equity, seller may demand immediate payment and at seller's option. (i) suspend all further deliveries to be made under the purchase order or any further performance under any other contract with buyer or buyer's affiliates, in which event buyer shall not be released in any respect from its obligations to seller under the purchase order; (ii) recover all costs of collection including but not limited to reasonable attorneys' fees; (iii) repossess the product for which payment has not been made; (vi) charge interest at 1.5% per month on the past due amount, not to exceed the interest percentage allowed by law; and (vii) reassess the credit worthiness of buyer and change any current payment terms. Any discount from seller's rates, if any, shall cease to apply to the delinquent invoice, buyer shall be invoiced for such differences in cost, and shall immediately pay the resulting invoice.

6. TAXES AND DUTIES

a) Any taxes related to the products purchased are the responsibility of buyer (excluding taxes based on seller's net income), unless buyer presents an exemption certificate acceptable to seller and the applicable taxing authorities. If any exemption certificate presented by buyer is held to be invalid, then buyer will pay seller the amount of the tax and any penalties and interest related thereto.
b) If possible, seller will bill taxes as a separate item on the invoice presented to buyer.
c) Sales tax will be charged on product cost and shipping & handling where applicable and required by law. Any sales tax due that is not collected by the seller is the responsibility of the buyer.
d) International orders may be subject to various taxes and duties in the country of destination, all of which are the responsibility of the buyer. This includes sales, use, excise, value added and similar taxes or charges imposed by any government authority, international shipping charges, forwarding agent's and broker's fees, bank fees, consular fees, document fees and import duties.

7. SHIPPING COSTS

Shipping or freight charges and insurance will be paid by the buyer and added to the invoice or billed collect unless specifically stated in the quote or order confirmation based on seller practices or promotions.

8. DELIVERY AND TITLE

a) Unless otherwise agreed to in writing, all products are shipped Incoterms 2010 - FCA Shipping Point. Subject to seller's right of stoppage in transit, delivery of the products to the carrier will constitute delivery to buyer and title and risk of loss will pass to buyer.
b) Seller will make reasonable efforts to initiate shipment and schedule delivery as close as possible to buyer's requested delivery date(s). Buyer acknowledges that delivery dates provided by seller are estimates only and that seller will not be liable for failure to deliver on such dates.
c) Selection of the carrier and delivery route will be made by seller unless specifically designated by buyer.
d) Seller reserves the right to make deliveries in installments. Delay in delivery of one installment will not entitle buyer to cancel any other installment(s). Delivery of any installment of products within thirty (30) days after the date requested will constitute a timely delivery. Delivery of a quantity that varies from the quantity specified shall not relieve buyer of the obligation to accept delivery and pay for the products delivered.
e) Deliveries shall be made during normal business hours Monday through Friday. One attempt to deliver will be made. Should delivery need to be rescheduled, any additional costs incurred for redelivery and/or storage fees will be charged to the buyer. Seller shall use reasonable efforts to make timely delivery but shall be excused from any delays arising out of causes beyond its reasonable control. Any specific delivery dates that may be stated are approximate.
f) If completion of delivery is prevented through no fault of seller, seller may specify a reasonable alternative place of delivery. Buyer agrees that all costs of storage and transport incurred following an initial attempt at delivery are hereby allocated to and imposed upon buyer, and shall be added by seller to the sale price. Delivery may at any time be withheld by seller pending payment of any sum due from the buyer to seller. Seller will return Product via the incoming method unless an alternative method has been indicated on the purchase order or a change authorized by the buyer representative.
g) Deliveries made outside the 48 contiguous States may be subject to modified terms and conditions as stated within the order quote.
