ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

BENCHTOP GYROTORY® INCUBATOR SHAKERS
Models 4200 & Refrigerated 4230

Our most versatile benchtop shaker, Model 4230 can agitate, incubate, refrigerate and illuminate. When refrigeration is not needed, Model 4200 does the job. These multi-purpose instruments have the same size shaker platform as Models 4000/4080, but accept flasks to 6 Liters, and have two stationary shelves for added incubating or storing capability. With a front-opening door, they can be used on the bench, or floor-stacked two high for space savings.

Click Here for Full-Size Image

Innova 4200/4230 shakers include two stationery shelves. Shown with dedicated 250 mL accessory platform.

UNIQUE ADVANTAGES

- **Wide Temperature Range:** 5°C above ambient to 80°C in 60 Hz models, and to 75°C in 50 Hz models. In refrigerated Model 4230, from 20°C below ambient. (Minimum setpoint is 4°C)."
- **Agitation 25 to 400 rpm;** 25 to 300 rpm when stacking two units; ±1 rpm
- **Two Adjustable-Height, Stationary Shelves** provide added storage for incubating plates and other samples
- **Units Can Be Used On the Bench or Stacked* Two High** on the floor for space-savings
- **Optional Dual-Temperature Programming Timer Automates Switching Between Two Temperatures, and Cycling Agitation On or Off.** Limits metabolic activity in studies that end overnight, saving a return trip to the lab; and facilitates heat inductions (Model 4230 only)
- **Large Viewing Window & Internal Light Provide Clear Chamber Visibility,** minimizing the need to open the door. Rapid air circulation produces quick temperature equilibration and recovery, when needed
- **In-Chamber, Moisture-Proof Receptacle Provides Power for an Accessory Instrument** such as rocker, roller, or second shaker

Two Innova 4200/4230 shakers can be stacked using the optional stacking kit.

- **Large-Capacity Accessory Platforms Accept Glassware Up to 6 L;** Snap in place without tools, using optional Quick Change Platform Kit
- **Optional 5-Port Gassing Manifold** permits direct gassing into flasks for anaerobic cultures

- **Optional Photosynthetic Light Bank** with external on-off switch is available for culturing plant cells (Model 4230 only)

* Requires Stacking Kit

More information is available on Innova design advantages and safety features.

Shaker Capacity Chart

Flask Size (mL)	Dedicated Platform	Universal Platform
10	N/A	109
25	N/A	64
50	64	45
125	34	21
250	25	18
500	16	14
1000	9	8
2000	5	5
2800	4	4
4000	4	4
5000	N/A	4
6000	2	2

More Design Advantages Inherent In Innova Shakers.

- **Precise Regulation of Speed, Running Time, Incubation, Refrigeration and Humidity** is provided by microprocessor control with self-correcting PI feedback.

- **Additionally, Innova 40, 43 & 44 Series Models Feature Programmable Changes to Multiple Parameters on a Timed Basis.** Programs may be stored for repeat usage. An RS-232 interface allows remote changes to setpoints using standard laboratory software.

- **NBS Shakers Are the Quietest Running In the Industry,** providing a more favorable work environment.

- **Temperature is Precisely Regulated ± 0.1°C** from 30° - 40°C in incubated models.

- **Wide Speed Range Provides Versatility for Culturing Shear-Sensitive Mammalian Cells as well as Robust Bacterial Cultures.** Speed controlled within ± 1 rpm.

- **Timed Studies Can Be Programmed for Automatic Agitation Shut-Off.** End-of-study alarm and status light can be deactivated for continuous operation.

- **A Wide Range of Interchangeable Accessory Platforms** accommodate all your glassware. When using a single flask size, **Dedicated Platforms** provide maximum capacity, and come with clamps installed. **Universal Platforms** let you mix different-sized clamps and test tube racks for added versatility.

- **User-Friendly Controls** simplify entering setpoints and viewing current status. Display is clearly visible from all angles, across the room, and in the dark.

- **Audible and Visible Alarms** indicate setpoint deviations. Audible alarm can be muted.

- **Output Signal for Data Logging.** RS-232 port in Innova 40, 43 & 44 Series models allows data logging using standard laboratory software. 0 - 5 V output signal in Innova 4200, 4230 and 3100 is provided for recording temperature and speed.

- **Cool-Running Brushless Motors Never Require Lubrication,** and provide years of long life.

- **Electronics & Mechanical Components Are Enclosed, Protected From Accidental Spills.**

- **Comprehensive Warranty** - Three years on parts and two years on labor for the entire machine. (Glassware and their contents are not covered. Accessories, such as photosynthetic light banks, carry a one year warranty. See actual warranty for details.)

Safety Features

- **Acceleration - deceleration circuit** prevents sudden starts and stops. Minimizes mechanical damage for longer shaker life; and eliminates wetting of flask closures which would otherwise interfere with oxygen transfer

- **Unique Out-of-Balance Sensor Stops Agitation** when excess vibration is detected. Models 44, 44R and 4900.

- **Open door or open lid cutout switch** stops agitation when chamber is open*

- **Thermostat fail-safe** shuts off heaters if high limit is exceeded*

- **Automatic restart after power interrupt with non-volatile memory** keeps studies running smoothly

* Temperature-controlled models only

Why are Innova Shakers So Reliable?

Dependable operation is due in large part to the **NBS Triple-Eccentric Counterbalanced Drive.** Other shaker manufacturers may offer triple-eccentric drives in their shakers. But only NBS offers a broad-based cast-iron support mechanism - the most stable in the industry - **properly sized to each shaker, and specifically designed to support high-speed applications and heavy workloads.**

- Components are fabricated to exacting specifications. Drive shafts, for example, are machined to tolerances of .0002", ensuring stable, vibration-free operation, even when operated at speeds up to 500 rpm.

- With the highest-quality materials, superior design and precision fabrication, we guarantee our shakers will provide worry-free operation for many years to come.

NBS' often-imitated but never duplicated heavy-duty, counterbalanced Triple-Eccentric Drive ensures uniform motion is imparted to every flask, regardless of position on the platform. Heavy-duty construction allows us to guarantee that our shakers will perform to our specifications, even when fully loaded and operating at top speed.

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
