ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

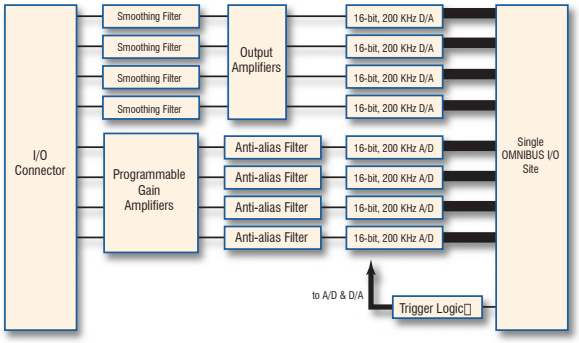

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

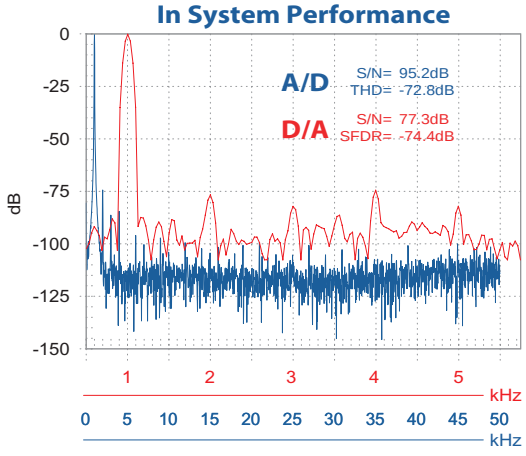

Expert team | Trust guarantee | 100% satisfaction

Interface	Compatible with all OMNIBUS host products Consumes one interrupt to host
Power Requirements	5V@130mA analog; 5V@160mA, +15V@30mA,-15V@30mA
Physicals	OMNIBUS mezzanine card; 2.000" X 4.600"
A/D Converters	4 Analog Devices AD976AA, a successive approximation architecture for low data latency
Resolution	16-bit
Update Rate	to 200 kHz
Settling Time	5 us (no filtering) @ 10 V step to 0.0008%
Analog Input Range	±10V, ±5V, ±2.5V, ±1.25V, software programmable
S/N Ratio	90 dB
THD	-70 dB (improved if filter defeated)
Dynamic Range	90 dB
Gain Error	Trimmable on each channel – factory calibrated
Differential Linearity Error	+3/-2 LSB
Offset Error	Trimmable on each channel – factory calibrated
Aperature Delay	40 ns
Programmable Gain	1,2,4,8 standard; 1,2,5,10 available special order
Input Type	Differential
Input Impedance	1 MOhm||5 pF; Each input leg is tied to ground with 1 MOhm resistor
Filter characteristics	6-pole elliptic filter -3 dB set at 100 kHz no overshoot
Conversion Trigger Sources	Software, host timers or external trigger
Interface to DSP	Memory-mapped 32-bit result returned for each A/D pair
D/A Converters	4 analog devices AD7846
Resolution	16-bit
Output Range	± 10 V custom ranges may be special ordered
Settling Time	7 us (unfiltered) to 0.003%
Dynamic Range	96 dB
Offset Error	Trimmable on each channel – factory calibrated to ± 4 LSB
Gain Error Differential	Trimmable on each channel – factory calibrated to ± 4 LSB
Nonlinearity Error D/A	± 1 LSB – Monotonic
Glitch Energy	400 nV-sec typical at MSB transition
Interface to DSP	16-bit Memory-mapped

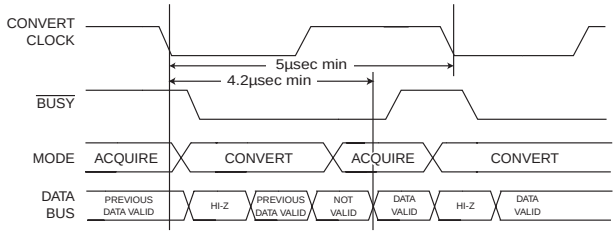

A4D4 - Instrumentation Grade Analog I/O Module

The A4D4 module is ideal for high-accuracy analog measurement and control systems with data acquisition speeds up to 200 kHz. The A4D4 provides analog I/O that is tightly coupled with the host for control systems, process monitoring and data acquisition. Applications include vibration measurement and control, SONAR and semiconductor process equipment to name a few.

The four analog inputs on the A4D4 module are successive approximation type A/D converters, which allow low data latency critical in control applications. Each A/D channel has a six-pole analog anti-alias filter and differential inputs for noise rejection. Potentiometers allow each channel gain/offset error correction for accurate measurements.

Four channels of 16-bit instrumentation grade D/A converters are provided using Analog Devices AD7846. The D/A's provide analog signal output for control and signal generation. Each channel has potentiometers for gain/offset error correction and single pole filters set at 72kHz.

Software examples demonstrating module operation and communication are included in the Zuma/Armada Toolsets. A full calibration report ships with every module.

Conversion Timing with Outputs Enabled After Conversion ($\overline{CS}$ Tied Low)

Artisan Technology Group - Quality Instrumentation ... Guaranteed | (888) 88-SOURCE | www.artisantg.com

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.

Learn more!

Visit us at **artisantg.com** for more info on price quotes, drivers, technical specifications, manuals, and documentation.

Artisan Scientific Corporation dba Artisan Technology Group is not an affiliate, representative, or authorized distributor for any manufacturer listed herein.

We're here to make your life easier. How can we help you today?
