

Artisan Technology Group is your source for quality new and certified-used/pre-owned equipment

- FAST SHIPPING AND DELIVERY
- TENS OF THOUSANDS OF IN-STOCK ITEMS
- EQUIPMENT DEMOS
- HUNDREDS OF MANUFACTURERS SUPPORTED
- LEASING/MONTHLY RENTALS
- ITAR CERTIFIED SECURE ASSET SOLUTIONS

SERVICE CENTER REPAIRS

Experienced engineers and technicians on staff at our full-service, in-house repair center

*InstraView*SM REMOTE INSPECTION

Remotely inspect equipment before purchasing with our interactive website at www.instraview.com ↗

WE BUY USED EQUIPMENT

Sell your excess, underutilized, and idle used equipment. We also offer credit for buy-backs and trade-ins. www.artisanng.com/WeBuyEquipment ↗

Miniature Stirring Systems

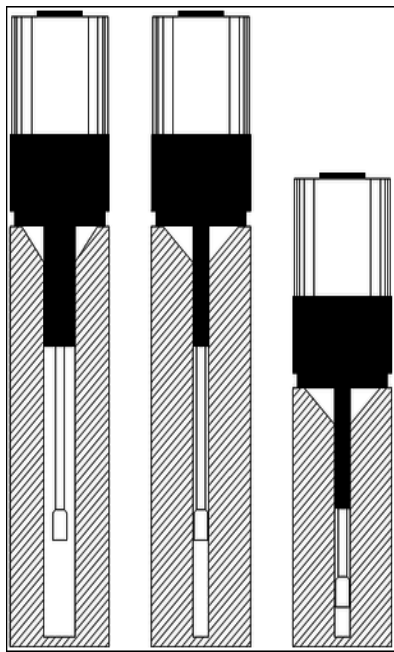

Instech's magnetic and direct stirrers stir solutions in spectrophotometer cuvettes and other small spaces. For a complete system combine a magnetic or direct stirring kit with a one, two or six channel speed controller.

- [Direct Stirring Kits for Spectrophotometer Cuvettes](#)
- [Minitaure Magnetic Stirring Kit](#)
- [Stirrer Speed Controllers](#)

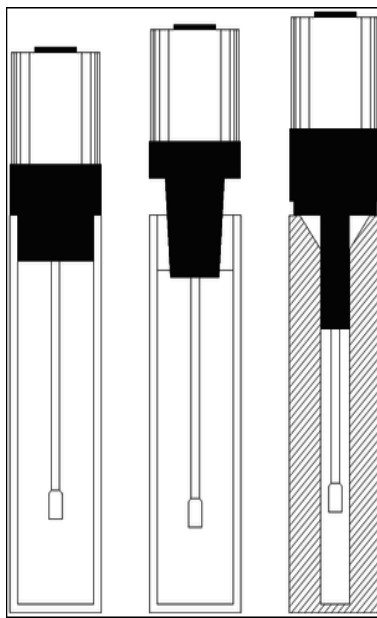

Direct Stirring Kits

Models 60SKIT/A and 60MKIT/A

Direct stirrers are advantageous for many applications because they do not require modification of the spectrophotometer, they are gentle on cell suspensions, they do not uncouple at high speeds, and they work well with micro-cuvettes. Each kit includes a 12 mm motor assembly, 5 polyethylene stirring blades, and 3 sizes of cell adapters.

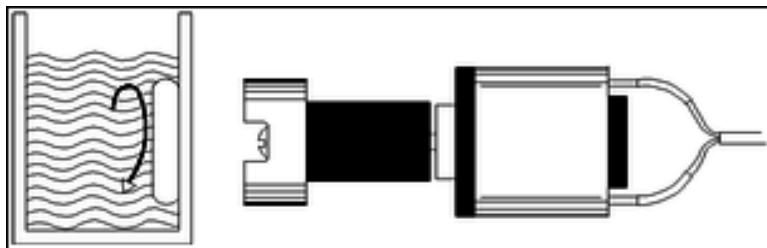

**Micro Cuvette Stirring Kit
(60MKIT/A)**

**Standard Cuvette Stirring Kit
(60SKIT/A)**

Minitaure Magnetic Stirring Kit

Model 604KIT

This magnetically coupled stirring assembly can be used with spectrophotometers, spectrofluorimeters, our [oxygen monitoring system](#), and many other custom applications. Mount it horizontally or vertically. Includes a 12 mm motor/magnet assembly, mounting clip, and 2 x 7 mm Teflon stir bar.

Stirrer Speed Controllers

Models 1060, 2060 and 6060

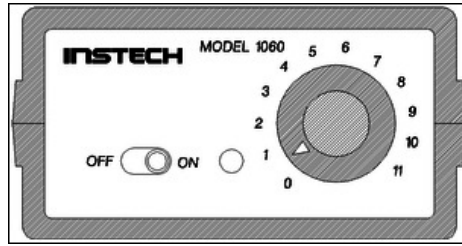

Instech's motor speed controllers feature unique pseudo-tachometer circuitry to regulate the speed of direct and magnetic stirring systems from 200 to 5000 RPM. The design eliminates overshoot at start-up and minimizes electromagnetic interference. Wall-mounted 120 VAC/DC power adapters are standard; 220 VAC adapters are available for an extra charge.

1060

Channels: One

Power Supply: 9 VDC adapter

Dimensions: 3.75 x 5.25 x 1.5 inches

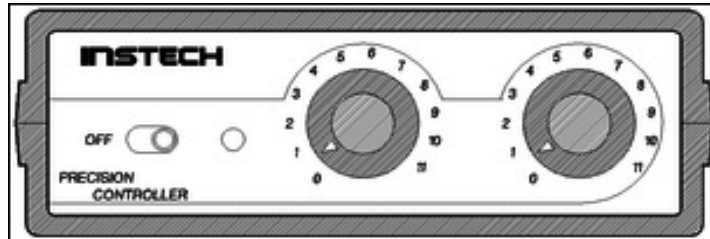

2060

Channels: Two

Power Supply: 9 VDC adapter

Dimensions: 5.0 x 5.25 x 1.5 inches

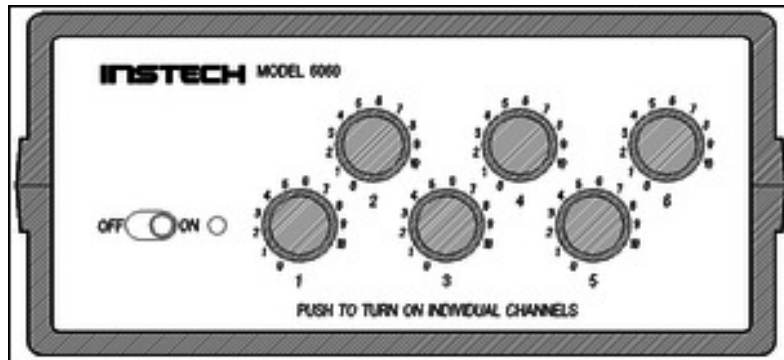

6060

Channels: Six

Power Supply: 12 VDC adapter

Dimensions: 5.0 x 5.25 x 2.25 inches
