

Artisan Technology Group is your source for quality new and certified-used/pre-owned equipment

- FAST SHIPPING AND DELIVERY
- TENS OF THOUSANDS OF IN-STOCK ITEMS
- EQUIPMENT DEMOS
- HUNDREDS OF MANUFACTURERS SUPPORTED
- LEASING/MONTHLY RENTALS
- ITAR CERTIFIED SECURE ASSET SOLUTIONS

SERVICE CENTER REPAIRS

Experienced engineers and technicians on staff at our full-service, in-house repair center

*InstraView*SM REMOTE INSPECTION

Remotely inspect equipment before purchasing with our interactive website at www.instraview.com ↗

WE BUY USED EQUIPMENT

Sell your excess, underutilized, and idle used equipment. We also offer credit for buy-backs and trade-ins. www.artisanng.com/WeBuyEquipment ↗

2-CHANNEL ANALOG OSCILLOSCOPE

The Best Economic Oscilloscope

GOS-630FC is a brand new benchmark for the Oscilloscopes within the same category. The new innovative functions, including LCD Readout Display, Frequency Counter, and Auto Time-Base setting, are provided as standard features of the product. GOS-630FC, with a bandwidth elevated to 30MHz and additional valuable features, is priced at the level of a fundamental oscilloscope. The add-on value without additional cost make GOS-630FC a most beneficial choice among the entry-level analog oscilloscopes available in the market today.

1mV/div High Vertical Sensitivity

GOS-630FC, with high vertical sensitivity up to 1mV/div, is able to capture the small signals of the input source. Wide ranges of vertical, horizontal, and trigger settings make GOS-630FC a full-fledged oscilloscope. Additional functions such as XY mode display, MAG function (Time based Magnified), and Z-axis Input extend the application range of GOS-630FC to both the education and industry fields.

LCD Readout Display & Real-Time Frequency Counter

Vertical/Horizontal settings and input signal Frequency of GOS-630FC are shown on a bright and clear LCD display simultaneously. Users could easily know the current setting status from the small LCD screen instead of checking the knob positions. GOS-630FC automatically counts the frequency of the input signal

and shows this reading on the display. This is a good feature rarely seen on a basic oscilloscope.

Auto Time-Base Intelligent Operations

GOS-630FC provides " Auto Time-Base " function, which is seen only in digital or high-end analog oscilloscopes, to automatically select the appropriate horizontal time base for waveform display. Buzzer alarm reminds users when the Vertical/Horizontal setting reaches the maximum or minimum boundary.

High Product Quality with Economic Price

GOS-630FC is a highly reliable product guaranteed by an ISO certified manufacturing system. Hundreds of quality tests have to be passed upon completion of the manufacturing of each unit. Economic price and remarkable functions like LCD readout display, 5 digits real-time counter, and Auto Time-base make GOS-630FC a product with the best price vs. performance ratio in the oscilloscope market.

GOS-630FC

FEATURES

- 1mV/div High Vertical Sensitivity
- Internal 5 Digits Real-Time Frequency Counter
- LCD Readout Display for Vertical/Horizontal/Frequency Measurement
- Auto Time-Base
- Buzzer Alarm
- TV(TV-V, TV-H) Trigger Modes
- XY Mode
- Z-Axis Input and External Trigger Input

1. High Sensitivity 1mV/div
2. Auto Time-Base
3. LCD Readout Display
4. 5 Digits Real-Time Frequency Counter

APPLICATIONS

- Education and Training
- R & D Design and Verification
- Maintenance and Service Center
