BNC Video Cable – BVCP-xx-P

Product Outline

This high performance 75 Ohm BNC cable uses a robust RG59, controlled impedance cable to provide quality video images even at greater distances.

Overmolding provides superior strain relief and minimizes shorts and stress at the terminations through repeated installations or motion and vibration.

Assemblies are also available with a mini coax, RG174, or with multiple BNC breakouts for carrying full RGBS signals in one assembly. Please contact customer service for details.
