GT409 Series

This 1/4 DIN model is an analog pressure indicator/power supply designed for use with any four leg, 350 ohm Wheatstone bridge pressure transducer. The large 240 degree arc international scale makes the analog meter easy to read. Available with dual alarm setpoints, selectable recorder outputs and control sequence.

GT435 Series

This 1/4 DIN model is an analog-digital pressure indicator/power supply designed for use with any four leg, 350 ohm Wheatstone bridge pressure transducer. The large 240 degree arc international scale makes the analog meter easy to read. A 4-½ digit LED digital display gives you the accuracy you need for the optional dual alarm setpoints. Available with selectable recorder outputs and control sequence.

GT437 Series

Ideal for screen changers. This 1/4 DIN model is a digital differential pressure indicator designed for use with any four leg, 350 ohm Wheatstone bridge pressure transducer. The large 4-½ digit, 1/3-inch high LED display is easy to read, even from a distance. Available with dual alarm setpoints, selectable recorder outputs and control sequence. Optional valley hold and peak hold.

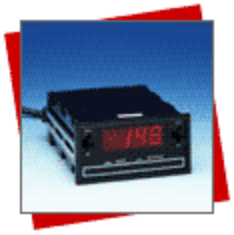

GT439 Series

For space saving applications, this 1/4 DIN model is a combination digital pressure/temperature indicator and power supply designed for use with any four leg, 350 ohm Wheatstone bridge pressure transducer. The large 4-½

digit, 1/3-inch high LED display is easy to read, even from a distance. Available with dual alarm setpoints, Selectable recorder outputs and control sequence.

GT446 Series

This 1/8 DIN model is a digital temperature indicator designed for use with a Gentran combined melt pressure transducer and thermocouple or completely compatible with any J or K type thermocouple. The large 3-½ digit LED display is easy-to-read, even from a distance.

GT406 Series

This 1/4 DIN signal conditioner/power supply is designed for use with any four leg, 350 ohm Wheatstone bridge pressure transducer. With front panel zero and span adjustments, set up is easy. A calibration switch allows use with internal or external shunted transducers. Available with dual alarms setpoints, current output or integral display.
