

Artisan Technology Group is your source for quality new and certified-used/pre-owned equipment

- FAST SHIPPING AND DELIVERY
- TENS OF THOUSANDS OF IN-STOCK ITEMS
- EQUIPMENT DEMOS
- HUNDREDS OF MANUFACTURERS SUPPORTED
- LEASING/MONTHLY RENTALS
- ITAR CERTIFIED SECURE ASSET SOLUTIONS

SERVICE CENTER REPAIRS

Experienced engineers and technicians on staff at our full-service, in-house repair center

*InstraView*SM REMOTE INSPECTION

Remotely inspect equipment before purchasing with our interactive website at www.instraview.com ↗

WE BUY USED EQUIPMENT

Sell your excess, underutilized, and idle used equipment. We also offer credit for buy-backs and trade-ins. www.artisanng.com/WeBuyEquipment ↗

QUICK DUMP RINSER

JST's Quick Dump Rinser supplies Deionized (DI) water from the bottom of the bath through ports that direct the flow up and across the product's surface. This upward flow lifts the particles and chemicals away from the product and over the four sided overflow weir. After the short overflow cycle, the bottom dump door opens and quickly dumps the rinse water. At the same time, top mounted sprays keep the product sprayed with fresh, clean DI water during the dumping process. The quick dump rinse is followed by a high flow cascade rinse to ensure all chemical and particulate is removed.

A programmable controller allows flexibility in creating specific rinsing routines and has the ability to set the number of rinse and dump cycles. Timers are included for programming high flow cascade cycle times. The automatic self cleaning cycle flushes and purges the quick dump plumbing, valves, and DI water manifold to eliminate bacterial growth.

JST's Quick Dump Rinser provides efficient chemical and particulate removal while minimizing DI water consumption.

Basic Features

- Programmable Rinsing Routines
- Ability to set the Number of Fill & Dump Cycles
- Rinse Timer for High Flow Cascading
- Automatic Self Cleaning Cycles

Options

- Construction Materials
 - Natural Polypropylene
 - PVDF
- Resistivity Monitoring
- DI Water Reclaim
- Flowmeter for Volume Control
- Hot DI Water
