Accessories

Maximize flexibility, capabilities, and ease of use with these accessories

DMM scanner cards

The Keithley Series 2000 multimeters and the Series 6500 electrometers are available with optional plug-in switch modules, which can provide up to 20 channels of scanning and switching capability.

GPIB boards

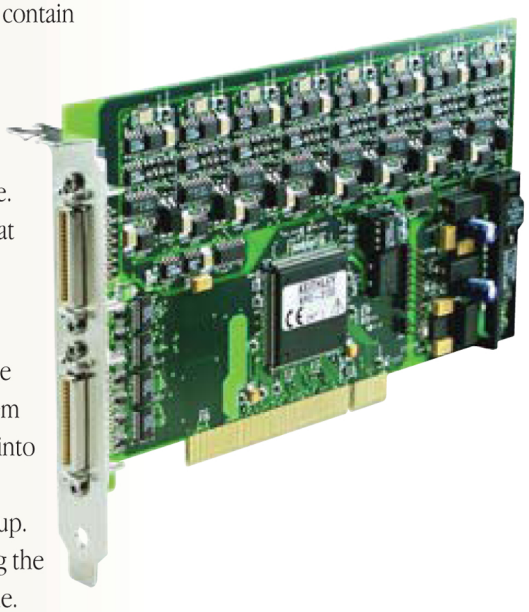

Keithley's GPIB (IEEE-488) boards add standard GPIB bus control to a PC. They include complete programming language support for a wide range of languages. Keithley offers GPIB boards for PCs that contain PCI, ISA, and PCMCIA slots.

Model 7999-4 and 7999-5 RS-232 Switch and Relay Controller

These products reduce the amount of RF/microwave cabling needed in a system, which increases signal integrity. These stand-alone units are easy to place almost anywhere in the test environment. The Model 7999-4 is a control unit that contains a DC-18GHz SPDT switch. The Model 7999-5 is a 16-channel switch controller with 16 open collectors. Each of its open collectors can sink 300mA at 28VDC, allowing them to control switches and other devices. Both models include an RS-232 control interface.

Digital I/O boards

For applications that require additional digital I/O lines, a wide range of digital I/O boards are available. See the complete list of Keithley digital I/O boards at www.keithley.com.

Model KPC-TM Trigger Master

The Trigger Master interface card provides complete timing control over the GPIB instruments in a system without sacrificing throughput. The KPC-TM plugs into the system's PC, giving it direct control over the hardware triggers of the instruments in the test setup. This provides maximum throughput, while allowing the KPC-TM to start and stop a process easily at any time.

EASY TO PLACE ALMOST ANYWHERE IN THE TEST ENVIRONMENT

Artisan Technology Group - Quality Instrumentation ... Guaranteed | (888) 88-SOURCE | www.artisantg.com

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
