OPTION 060

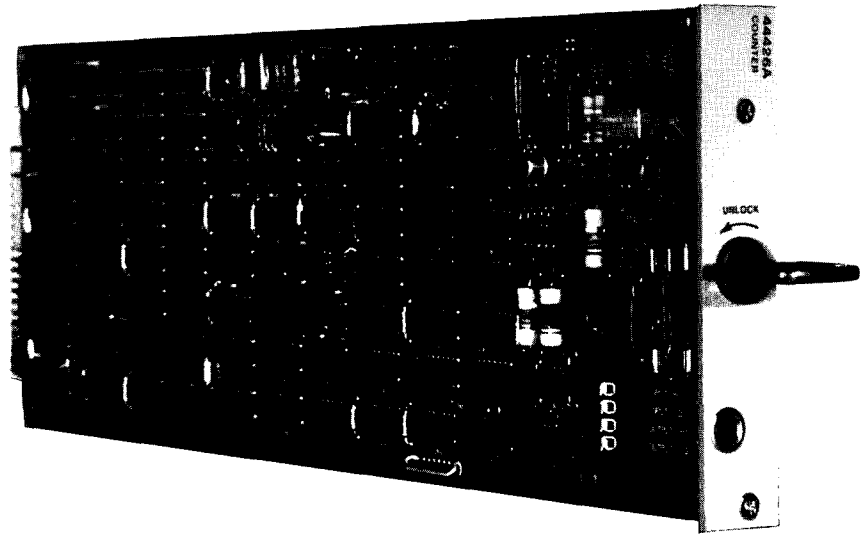

100 kHz Reciprocal Counter Assembly

Description

Option 060 is a 100 kHz reciprocal counter which can measure the period of input signals up to 100 kHz and the pulse width of signals down to 18 μsec. In addition, the counter can count up or down from a programmable start point and can output a programmable number of square wave pulses for control applications.

Applications

Use the Option 060 assembly to measure mechanical and low frequency electronic signals. Use the programmable square wave output pulse feature to control external circuits.

Artisan Technology Group - Quality Instrumentation ... Guaranteed | (888) 88-SOURCE | www.artisantg.com
