Description

This product has been discontinued by Keysight on July 31, 2009, and it is no longer available. Technical support will be available for 5 years beyond the discontinuance date, NiMH Battery Pack for Mini-OTDR (E6080A), Battery Pack (LiIon) for N3900A Modular Network Tester (N3985A) and AC Power Supply for Mini-OTDR and N3900A MNT will continued to be sold for the next 5 years until 2014.

The Keysight Mini-OTDR is the best selling product in Keysight's portfolio of Optical Network Test Solutions for the installation, maintenance and operation of fiber networks.

The Mini-OTDR is designed to provide its users with the fastest tool available for installing and commissioning multiple fiber links and locating faults for fiber maintenance. This is accomplished through high measurement performance and an award winning simple user interface.

- Fiber Break Locator to quickly find breaks and bends.
- Locate and characterize splice and connector losses.
- Multifiber testing for fast high-count cable qualification.
- Perform power and loss measurement with the built-in light source and the power meter module.
- Graphical representation of measurement results in event tables, showing loss and reflection, and pass/fail results.
- Visual Fault Finder to check patch cords for light leakage.
