

ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

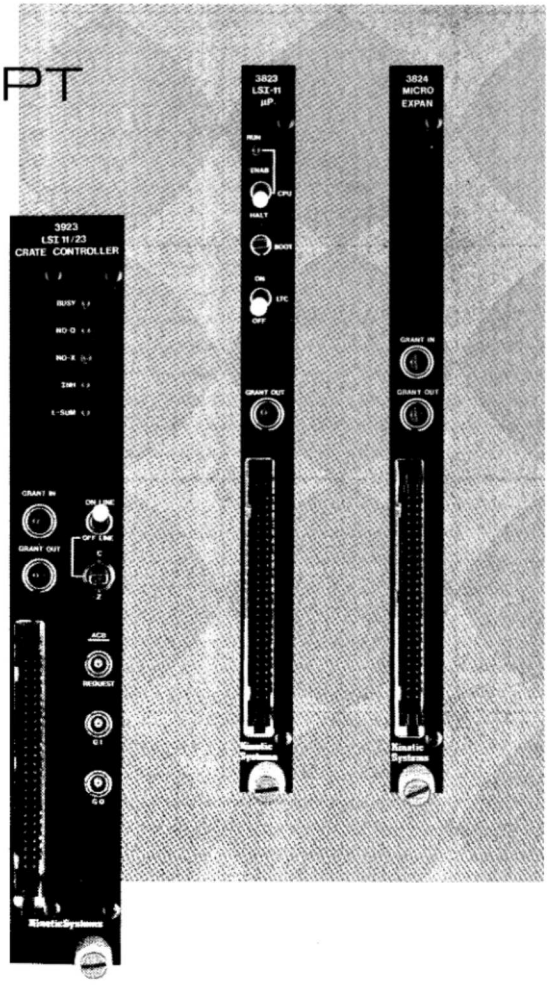

Expert team | Trust guarantee | 100% satisfaction

New 8033 CONCEPT gives you the best of two worlds-

CAMAC control and LSI-11 power

Now you can realize all the advantages of a cost-effective, compact LSI-11 microcomputer system within a CAMAC crate. Another total system concept, the 8033 can be used as an autonomous stand-alone system or as an integral part of a CAMAC serial highway. Its applications include laboratory automation, industrial process control, distributed systems, and software development.

The *8033 CONCEPT* offers you a unique I/O-addressable crate controller concept where four registers in the crate controller can be mapped anywhere in the LSI-11's I/O page. This concept eliminates address restraints on the I/O page and permits your application software to take full advantage of the LSI-11/23's speed.

In addition, the *8033 CONCEPT* features:

- *full LSI-11 bus compatibility*
- *four strap-selectable LSI-11/23 interrupt levels*
- *support for multiple crates on a single LSI-11 bus*
- *software drivers and FORTRAN-callable subroutines available and supported by KineticSystems*

8033 CONCEPT system

This LSI-11/23 CAMAC system is an expandable modular device composed of these major components:

- a 1500 25-slot powered CAMAC crate (housing your microcomputer system and process modules)
- a 3923 CAMAC crate controller for LSI-11 (serving in either main or auxiliary mode)
- a 3823 Processor Adapter Unit (housing an LSI-11/23 CPU module)*
- a 3824 Peripheral Adapter Unit (housing memory or peripheral interface modules)

**This unit houses an LSI-11/2 CPU module in our 8032 CONCEPT system.*
