Front-panel Termination Assemblies

Termination units that mount on the module front panel V750 - V754

Features

- **Convenient termination of field wiring within the VXI Mainframe**
- **Up to 128 I/O terminations**
- **Options available with internal reference junction**

Typical Applications

- **Field wiring terminations**
- **Module I/O termination**
- **General-purpose temperature measurement**

General Description

The V750 through V754 series of products are termination assemblies for VXI modules using 50- or 68-position high density connectors.

These termination assemblies plug directly onto the module front panel and provide terminals to receive field wiring. Each terminal accepts a single solid or stranded conductor in wire sizes AWG 26 to AWG 12. Options are available with an isothermal reference that may be used when terminating thermocouples to the assemblies.

V750 shown with cover removed

Ordering Information

Model V750-ZA11 Termination Assembly for V246
Model V750-ZB11 Termination Assembly for 48-channel V243
Model V750-ZC11 Isothermal Termination Assembly for V213

Model V751-ZA11 Termination Assembly for 32-channel V266
Model V751-ZA21 Termination Assembly for 64-channel V266
Model V751-ZA31 Termination Assembly for 4-20 mA V266
Model V751-ZA41 Termination Assembly for ±16 V V266

Model V752-ZA11 Termination Assembly for V253
Model V752-ZB11 Termination Assembly for V252
Model V752-ZC11 Isothermal Termination Assembly for V253

Model V754-ZA11 Termination Assembly for 16-channel V285

Artisan Technology Group - Quality Instrumentation ... Guaranteed | (888) 88-SOURCE | www.artisantg.com

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
