Description

THIS PRODUCT IS OBSOLETE DUE TO LACK OF COMPONENT AVAILABILITY. PLEASE CONTACT YOUR SALES REPRESENTATIVE FOR FURTHER INFORMATION AND OTHER PRODUCT ALTERNATIVES.

The 3088 ISA serial interface provides PC systems with two RS-232 Asynchronous links to data collection and other devices. Modems, data entry terminals and plotters are some devices that use RS-232 protocols. The 3088 allows for individually selectable interrupts (2-5, 7, 10-12 and 15). This product provides an excellent means for expanding the number of serial ports in a PC, while eliminating potential conflicts.

Category: ISA

Additional information

Communications Chip	16550
Electrical Interface	RS-232
Humidity Range	10 – 90% Relative Humidity, Non-Condensing
Host Interface(s)	ISA

Max Data Distance	50 feet
Max Data Rate	115.2K bps
Operating Temperature	0°C to 70°C (32°F to 158°F)
# of Ports	2
Serial Connector(s)	DB9M
Storage Temperature	-50 – +105C
UART Series	550 UART

Configurable to addresses including COM1:-COM4
Supports Windows, Linux, QNX, DOS and other operating systems
