

ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

Automotive Interface 4

SENT Monitor & Simulation

Intelligent Interface with 2 SENT Receiver and 2 SENT Transmitter.

- Analyze and record SENT Data transmission on both channels according to SAE J2716
- Cyclic and spontaneous transmit of SENT-Frames
- Support transmit with constant cycle as extension to the SAE J2716
- Interface for PC or PLC communication via USB (RS232 on Request)
- Online Bus Trace (screen)
- Monitoring all SENT information on screen and in a file
- 2 Additional DA Outputs (0-5V, 12 Bit) to output direct information out of the SENT-Signal
- Producing a trigger out signal (TTL)
- Trigger Input with different options
- High accuracy of the system time reference
- Timing analysis of the data telegrams with a resolution of 40ns
- Efficient hardware (HCS12) with expandability
- Customer adjustments on Request
- Flash-Update via PC-Software
- USB-Integration via DLL-Interface including complete Source-Codes

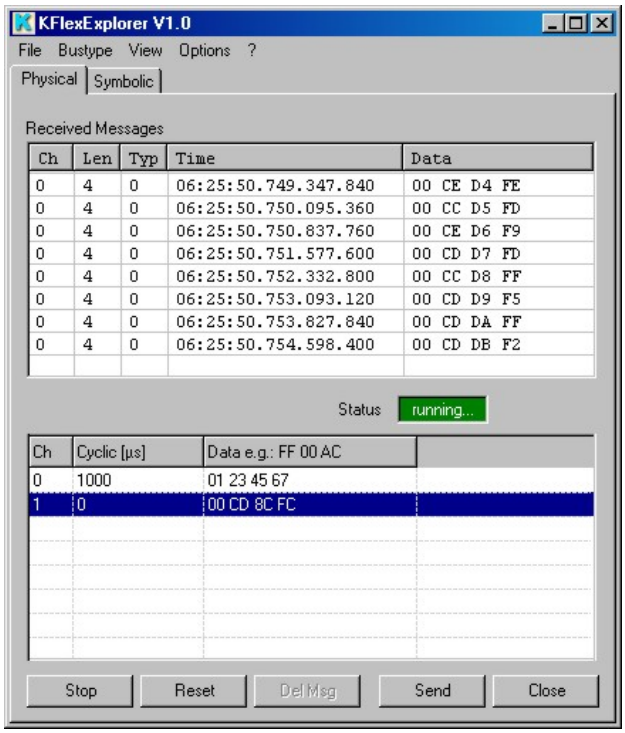

Operational areas of the Automotive Interfaces (AI)

The AI4 is used in the development, testing and production area of car manufacturers and their supplier.

KOPF GmbH
Kapbachstraße 6
76829 Landau
Germany
Tel. +49 6341 91767-0
Fax. +49 6341 91767-50
Email: info@kopfweb.de

PC Software - KFlexExplorer

Together with the AI4 the KFlexExplorer is delivered to manage and analyze the SENT data of the AI4. The communication between PC and AI4 takes place with the help of a dynamic Link Library (DLL) via the USB-Interface. The DLL interface is full documented and can be used also by the Customer to access the AI4 e.g. from LabView and other tools.

Function range of KFlexExplorer

- Cycle and spontaneous sending procedures
- Support of max. 2 SENT-Transmitter and Receiver
- Recording data in a file
- Support of Win98, Win2000 or XP(Vista 4/2007)

The setup of the SENT communication can be stored in configuration files for different simulations- and/or test environments.

SENT
Monitor & Simulation

Technical data AI4 in overview

Voltage supply	USB or 5 V DC external
SENT-Interface SAEJ2716	2x Transmitter 2x Receiver SAEJ
USB-Interface	1x FTDI245
CAN-Interface	1x 82C251 / TJA1050
RS232-Interface	1x HIN202 (PC,SPS)
Dimensions (LxWxH)	112x60x20 mm
Weight	0,1 kg
Temperature range	-40°C .. 85 °C (0°C .. 50°C USB)
Processor	MC9S12DP256/25 MHz
System Memory	256 kB Flash-EPROM (Update over PC) 12 kB RAM

Order- and Price information

Automotive Interface 4 372 €
DA 12 Bit
Order-No. 070 010 240

Automotive Interface 4 427 €
Aluminium Case with
Top Hat Rail
DA 12 Bit
Order-No. 070 010 240C

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
