Description

This unique extender allows mating cables to exit in the reverse direction than standard extenders. This feature is sometimes desirable and necessary to avoid nearby obstructions. Also provides a one inch extension allowing right angle cables that extra margin to clear nearby obstacles. Connectors are male to female and satisfy UL94V-0 flammability requirements. Quantity pricing available, please contact your L-com Sales Representative.

Features

- Cast aluminum housing provides durability
- Reverse entry allows cables to exit in the opposite direction
- 30 microinch gold plated contacts provide reliable connections with repeated mating cycles
- Connectors are male to female; mating hardware is M3.5 x 0.6 threaded
- UL94V-0 rated connector insulator satisfies flammability requirements

Application

- Data Acquisition
- Instrument Control
- Test and Measurement
