Heavy Duty D-sub Cable, DB9 Male / Female, 1.0 ft

L-com's new, ground breaking D-sub cables use 20 AWG conductors, the largest conductor most D-sub connectors can accommodate. This allows for maximum current throughput as well as an extremely durable assembly. Other key features include double shielding to prevent against data corrupting EMI/RFI, threaded inserts allowing the cable to be panel mounted directly without use of an adapter, and straight through wiring to accommodate most applications. Standard lengths range from 1 ft to 50 ft and custom lengths/ pinouts are available with modest minimum requirements.

Features

- Molded backshells provide durability and increased strength at cable entry point
- 20 AWG conductors provide maximum current throughput as well as an extremely durable assembly
- DB9 male to female connectors, lengths range from 1 ft. to 50 ft., color is dark gray
- Foil plus braid shield provides maximum protection against EMI/RFI

Application

- Data Networking
- RS-232 serial communications
- Test and measurement applications
- Uninterruptible power supply communications
