Laird RD1-DINB-3RD 3G-SDI DIN 1.0/2.3 to BNC Male Video Adapter Cable - 3 Foot Red

DIN 1.0/2.3 cables are finding their way into the latest new products in the broadcast market. There are many advantages to using the DIN technology for high speed and space savings. Some industry brands such as AJA, Nevion, Harris, MIRANDA, 3COM, CISCO and RED ONE to name a few have incorporated these new connectors. Designed for transmitting 3G-SDI using DIN1.0/2.3, Trompeter BNC's and Belden 1855A 3G SDI small diameter coax. The first series are designed and function as adapter cables. Very few video monitors and other equipment include DIN type connector interfaces at this time. These simply convert the DIN to a BNC for quick-patch connection. These are also great interface cables for Red One cameras which feature the DIN RF video connector.

Warranty:

- 1 Year
