L-Com IEEE-488 GPIB Normal / Normal Cable

Supreme performance combined with rugged durability makes this cable series a great value. Featuring an outer braid plus foil shield, these cables provide for enhanced protection against EMI (electromagnetic interference). A unique stamped steel internal enclosure provides 100% shielding and a robust strain relief. Molded back-shells contribute to a long life expectancy and resist breakage at the point where the cable enters the back-shell. This combination of features ensures a highly reliable cable that will pass stringent emissions testing while providing years of trouble free service. Custom modifications are available with modest minimum requirements.

Features for this IEEE-488 GPIB product

- Cable meets IEEE-488 standards for connecting peripherals where EMI is an issue
- 30 micro-inch gold contact plating provides reliable connections with repeated mating cycles
- Custom stamped steel internal enclosure provides 100% shielding and a robust strain relief
- Molded back-shells provide durability and increased strength at cable entry point
- Color: Gray

Details for this IEEE-488 GPIB product 1Meter

L-com Item #	CMB24-1M
Manufacturer	L-com
ASIN #(More)	B000ASB19G
UPC #(More)	822335011281
RoHS Status	RoHS Compliant
Connector Orientation	Normal / Normal
