LE MINI: The precise accurate mini's.

The world's smallest air heater with an integrated temperature probe. Especially suited for applications in which heat is concentrated to a point. They are simple to incorporate into the tightest spaces. LE MINI operates with compressed air at a pressure of 200 kPa. Model versions are available with or without an integrated sensor.
The SENSOR KIT add-on box offers a ready-to-use solution with its integrated power electronics and temperature regulator.
