Global Drive frequency inverters 8200

single phase, 0.37 - 2.2 kW

The 8200 mid-performance frequency inverter provides all functions you expect from a modern controller:

- Application-oriented functions
- Compact design
- Easy operation and assembly
- Internal functions reduce complexity
  Standard functions such as motor potentiometer, flying restart circuit, DC brake and relay output ensure a wide range of application.
- Minimum space requirement
  The inverters can be directly connected to each other because of the compact book case design. This makes it possible to use available space efficiently.

8200 single-phase Global Drive frequency inverters are applicable over the power range from 0.37 to 2.2 kW. They ensure safe and stable operation even with heavy loads.

Type	8201	8202	8203	8204
Rated motor power [kW] with Imax 1.5· Irated	0.37	0.75	1.50	2.20
Rated output current [A] with Imax 1.5 · Irated	2.6	4.0	7.0	9.5
Mains voltage [V]	1 x 190 ... 260 ± 0 %			
Dimensions (H x W x D) [mm]	210 x 64 x 158		283 x 83 x 211	
Weight [kg]	1.0	1.3	2.2	

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
