ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

Product Highlights

TMA

- 175 to 500-watt, convection and fan-cooled switchers
- High frequency MOSFET design for high reliability and efficiency
- 1 to 4 outputs, with many standard voltages and configurations
- Protection against damaging input line transients
- Meets stringent FCC & VDE conducted emission specification
- Many standard alarms and monitoring signals provide operational status of the supply

MMA

- 500 to 1,500-watt, fan-cooled switchers
- 40 standard models for increased design flexibility
- Power fail detection protects against loss of valuable data
- Proprietary circuitry prevents transformer saturation and possible power supply down-time
- Direct paralleling of supplies without special adjustments to handle increased power requirements
- Many standard alarms and monitoring signals provide operational status of the supply

SMA

- 750 to 2,500-watt, fan-cooled switchers
- 1 to 4 outputs, with many standard voltages including 3.3V
- Current-mode control, MOSFET design
- Single-wire current sharing capability for N+1 configuration
- Many standard alarms and monitoring signals provide operational status of the supply

PSMA - Power Factor Corrected

- 750 to 2,500-watt, fan-cooled switchers
- .99 Power factor correction
- 1 to 4 outputs, with many standard voltages including 3.3V
- Current-mode control, MOSFET design
- Constant holdup time from 85VAC to 264VAC
- Single-wire current sharing capability for N+1 configuration
- Draws less than 12A of input current at 120VAC for most models

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
