EXECUTIVE
FOOT SWITCH

LINEMASTER® is pleased to present the stylish Executive foot switch series. Equipped with a modern looking die cast cover, the Executive is a great choice if you require a rocker style foot pedal. The side to side actuation allows the user to perform two functions while having the luxury of a smaller foot print. Users of this foot switch can rest assured that both circuits will not operate at the same time because of the unique mechanical interlock design. This switch is a very popular choice for applications using equipment that must operate in multiple directions. Available in waterproof and multi-pedal variations, the Executive is a fine solution for many medical and light to medium duty applications. Only from LINEMASTER®, American made innovation at work.
