Instant Ethernet Combo PCMCIA EthernetCard

An Instant Network Gateway for your PCMCIA-Equipped Notebook PCs

"It's faster than Xircom. And it has more drivers."

Combo PCMCIA EthernetCard
(EC2T)
(EC2TC-D2)
(EC2TC-D3)

Ranked #3 by PC Computing, the Combo PCMCIA EthernetCard comes with all you need to get up and running with your network software fast. Supporting all major PCMCIA driver libraries--CardSoft, Cardware, Phoenix, and more — the EthernetCard is often recognized, initialized, and ready to go the moment you pop it into your PCs PCMCIA slot. It's fully software configurable, when means that there are no jumpers or switches to set. And it's Novell NE2000-compatible, so you don't have to worry about finding the right network drivers—it's guaranteed to run with your network software.

Reliable and powerful, the Combo PCMCIA EthernetCard only runs on minimal power requirements so your notebook PC's battery power is conserved. A stainless steel casing ensure that the EthernetCard will keep you connected for years to come. Its 10Mbps data transfer rate and built-in 16KB ring buffer makes your files transfers and downloads really fly. Major industry publications agree-when it comes to performance and value, few PCMCIA network cards can match the EthernetCard's price/performance ratio.
