2484 SERIES BATTERY DISCONNECT SWITCHES

40-175A • 36V • Single Pole, Single Throw

Cole Hersee
A Littelfuse Brand

2484 Front

2484 Back

2484-02

Description

2484 Series Battery Disconnect Switches are 36V Single Pole, Single Throw (SPST) manual disconnect switches that can be used to disconnect the battery from the vehicle electrical system. Disconnecting the battery from the electrical system prevents potential thermal events and ensures system shut down during maintenance or emergency. Battery disconnect switches also prevent parasitic loads from draining the battery during inactivity.

Ordering Information

Features and Benefits

- Rugged steel case
- Silver plated contacts for high conductivity and low contact resistance
- Removable Hencol key for security
- Anti-rotation locator pin option enables ease of mounting
- O-ring and gasket sealing options

Specifications Overview

Voltage Rating: 36V DC
Circuitry: Single Pole, Single Throw
Housing: Plated Steel

Applications

- Heavy Duty Truck
- Construction
- Emergency Vehicles
- Bus/Transit
- Agriculture
