BLACK BOX®

The World's Source for Connectivity℠

Gender Matchers (Series D & Centronics Compatible) and Serial AT and Parallel PC Adapters

More connection options give you the flexibility you need.

Technically Speaking

Gender Matchers

Use the Gender Matchers to mate connectors of the same gender with no extra cables. Their compact design limits the chances of damage during mechanical loading, or of pulling out the attached adapters.

Use the Gender Matchers with standard D subminiature screwlocks. No special mounting hardware required.

See the listing for models that are shielded against transient EMI/RFI signals.

AT Adapters

Connect your IBM® PC cables with serial-port DB25s to IBM PC/AT® or compatible computers with the AT® Adapters.

PC Adapters

Connect your IBM PC to a parallel printer with standard 25-conductor RS-232 cable.

The PC Adapter is compatible with most Centronics® type parallel printers including Anadex®, Brother®, C. Itoh®, Centronics, Epson®, Gemini®, NEC, Okidata®, QUME®, Smith-Corona®, Radio Shack®, Texas, Instruments®, and more.

For these and other components...

Call our expert Technical Support Staff for all your Cable and Connector needs. They'll help you find the best equipment for your application.
