MM-SLR 2.5x Universal DSLR to Microscope T-mount Adapter

Description

The Martin MM-SLR is our universal 2.5x SLR / DSLR microscope adapter. It is the best choice for full-frame sensor cameras, and fits multiple types of microscopes as it will fit any microscope with a 23mm or 30mm eyetube or phototube, and it will attach to a 1x C-mount which means it will work with virtually all light microscopes of all brands - even monocular and binocular models so long as an eyepiece can be removed leaving a 23mm or 30mm eyetube. Also designed to fit all Nikon "chimney" type phototubes directly.
