Legacy Products

End of life (EOL) effective June 2011
The Matrox QID LP PCIe is an EOL product and is no longer being manufactured or sold by Matrox. Consult your local resellers and distributors for available inventory. Customers who have deployed the QID LP PCIe can now benefit from nearest product alternatives such as the M9140 LP PCIe x16 and M9148 LP PCIe x16.

Matrox QID LP PCIe

The Matrox QID LP PCIe is a multi monitor PCI express x16 graphics card that fits in low-profile and ATX systems. It supports up to four digital or analog monitors at independent or stretched resolutions. Install another Matrox quad monitor graphics card to your system and drive up to eight monitors simultaneously–enabling you to see more and do more.

Features Specifications

- Native PCI Express x16 support
- Support for up to four* digital or analog monitors at a time (in "independent" or "stretched" mode)
- Joined graphics card mode enables an additional Matrox Quad graphics solution** to work in tandem in one system to drive up to eight displays†
- Low-profile form factor to fit in a wider variety of systems
- 128 MB graphics memory
- Matrox UltraSharp Display Output Technology
- 1600 x 1200 maximum resolution per display*
- Unified Microsoft Windows 2000, Windows XP, and Windows Vista XDDM display driver for the Matrox QID series of graphics cards
- Easy-to-use Matrox PowerDesk driver interface
- Matrox Clone to view a copy of one display on the other displays
- Display pivoting (rotation)
- Support for displays with special aspect ratios
- Support for customizable unattended installation for rapid multi-system setup
- Global sales and technical support
- 3-year warranty

* For stretched and independent mode support for quad-display products, click here.
** With Joined graphics card mode, a quad-display graphics card can only be joined with another quad-display graphics card to drive a maximum of eight displays.
† Joined graphics card mode multi-display configurations can be obtained by downloading the Matrox PowerDesk-SE version 2.04 display driver and above.

Hardware included

- Matrox QID LP PCIe graphics card (with ATX bracket attached)
- KX20-to-DVI quad-monitor adapter cable (1-foot)
- 4 DVI-to-HD15 connector adapters
- LP (Low-Profile) bracket

Software included

- Matrox display driver for Microsoft Windows 2000 and Windows XP†

Artisan Technology Group - Quality Instrumentation ... Guaranteed | (888) 88-SOURCE | www.artisantg.com

- Matrox PowerDesk (driver interface and utilities)

† Drivers for Windows Server 2003, Windows XP X64 (64-bit) and Windows Vista XDDM available online. For other possible operating systems, contact Matrox.

Optional upgrades

- Quad-TV-output adapter cable (composite video and S-video, 1-foot)
