PM001

The PM001 is a most versatile PC Card Interface for the VMEbus. Both Memory and I/O-Cards are supported. Two card slots allow the use of either up to 2x type I or II cards or 1x type III card. Various access modes may be selected to adapt card size and VMEbus address space. An onboard piezoelectric sounder offers speaker support. The PM001 is available for the extended temperature range (-40°..+85°C), too.
