ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

GOT1000 Series Optional Units

Product Name	Model Number	Specifications	Applicable Model				Stocked Item
			GT16	GT14	GT1020/ 1030	GT1040/ 1050	
Printer Unit	GT15-PRN	USB slave (PictBridge) for printer connection, 1ch. Cable for printer connection (3m) included	X	-	-	-	S
Video Input Unit	GT16M-V4	For NTSC/PAL input, 4ch	X	-	-	-	S
RGB Input Unit	GT16M-R2	For analog RGB input, 2ch	X	-	-	-	-
Video/RGB Input Unit	GT16M-V4R1	For NTSC/PAL (4ch) and RGB	X	-	-	-	S
RGB Output Unit	GT16M-ROUT	For analog, RGB output	X	-	-	-	S
Multimedia Unit	GT16M-MMR	For multimedia functions	X	-	-	-	S
CF Card Unit	GT15-CFCD	For additional CF card port (B drive) on the back of the GOT	X	-	-	-	S
CF Card Extension Unit	GT15-CFEX-C08SET	For additional CF card port (B drive) at the front of the control panel (*)	X	-	-	-	-
Sound Output Unit	GT15-SOUT	For sound output	X	-	-	-	S
External Input/Output Unit	GT15-DIOR	For external input/output (Negative common input/ source output)	X	-	-	-	-
	GT15-DIO	For external input/output (Positive common input / source output)	X	-	-	-	-

Note: *Includes unit to be installed on the control panel, unit to be installed on the GOT, and connection cable (0.8m).

Notes:

1. GT1030 only.
2. Check if the oil resistant cover can be used in an actual use environment before use. When using the oil resistant cover, the front USB interface and human sensor cannot be used.
3. Including the GP250_ and GP260_ manufactured by Pro-face.

SCREEN CONFIGURATION SOFTWARE

GOT Screen Design Software

Screens for both GOT2000 and GOT1000 Series operator terminals are created using the GT Designer3, part of the GT Works3 suite of software products for GOTs. GT Designer3 provides an intuitive screen design environment that offers many features to make designing professional screens and projects for GOTs simple and efficient. The other titles included in GT Works3 provide additional resources to provide the ability to perform simulation, PC based operation, and convert projects created for legacy products and documents to be imported.

Product Name	Model Number	Description	Language	Included Software Titles	Stocked Item
GT Works3	GT-WORKS3-C1	GT Works3 1 User License Software Suite	English	GT Designer3 (GOT2000), GT Designer3 (GOT1000), GT Simulator3, GT Converter2, GT SoftGOT, Document Converter, GT SoftGOT2000/1000 (*1), GT SoftGOT2000/1000 Commander (*1), GT Designer2 Classic	S
	GT-WORKS3-C5	GT Works3 5 User License Software Suite			S
	GT-WORKS3-C10	GT Works3 10 User License Software Suite			-
	GT-WORKS3-UN	GT Works3 Unlimited User License Software Suite			-
	GT-WORKS3-OEM	GT Works3 OEM User License Software Suite			-

Note 1: To use GT SoftGOT2000 or GT SoftGOT2000, a license key is necessary for each personal computer.

GOT1000 Remote Access License

GT SoftGOT Remote Access Software
GT SoftGOT products enable remote access and operation of connected components with a personal computer acting as a operator interface. The software needed for SoftGOT access is included with GT Works3 and a USB license key is required for continuous operation on each PC.

GT SoftGOT
GT SoftGOT2000 for GOT2000 Series models and GT SoftGOT1000 for GOT1000 Series models enable an Ethernet connected PC to either share project data with a GOT and allow for remote monitoring and operation or connect directly to a PLC via Ethernet with no GOT hardware required.

GT SoftGOT Commander
GT SoftGOT2000 Commander for GOT2000 Series models and GT SoftGOT1000 for GOT1000 Series models enable multiple GT SoftGOT modules to be managed simultaneously, providing remote monitoring and operation functionality for larger systems.
