INSTALLATION GUIDE

Externally Powered USB M Series Panel Mounting Kit

The externally powered USB M Series panel mounting kit (part number 780214-01) is an accessory you can use to mount NI USB-622*x*/625*x*/628*x* devices to a panel.

Complete the following steps to install the panel mounting kit on your NI USB-62*xx* device.

1. Remove the rubber feet from the bottom of the USB-62*xx* device.
2. Fasten the wall mounts to the USB-62*xx* device using a #2 Phillips screwdriver and four M4 × 10 panhead screws, included in the panel mounting kit. Verify that the narrow ends of the panel mounting screw keyholes are pointing up. Tighten the screws to a torque of 1.29 N · m (11.5 lb · in.). Figure 1 shows a wall mount being attached to a USB-62*xx* device.

1	USB-62*xx* Device	3	M4 x 10 Panhead Screw
2	Wall Mount	4	Panel Mounting Screw Keyhole

Figure 1. Attaching the Wall Mounts to a USB-62*xx* Device

3. Use four M4 or #8 screws to attach the wall mounts to the panel. Tighten the screws, leaving room to easily remove the device from the panel.
