# PXI MIL-STD-1553 Interface Module

Provides PXI bus interfaces for the MIL-STD-1553 protocol.

PXI MIL-STD-1553 Interface Modules provide bus controller (BC), remote terminal (RT) (up to 32), or monitor (MON) operation and supports all MIL-STD-1553 message types. Options include models with both single-function and multifunction channel operation. MIL-STD-1553 data buses can maintain a time-tagged history of bus activity in a sequential record file for storage and analysis. Advanced features include multiterminal simulation with concurrent monitoring, variable transmit amplitude, zero crossing distortion, IRIG time synchronization/generation, and protocol error injection for word, gap, and message errors. PXI MIL-STD-1553 Interface Module applications include test, simulation, and operational uses of avionics data buses.

**Artisan Technology Group** is an independent supplier of quality pre-owned equipment

## Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

## We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
