Zoom 6000® Lens System

Navitar's Zoom 6000 is a modular zoom lens system offering high contract images and incredible versatility. Configure a system to fit nearly any application. Choose from a diverse selection of body tubes, accessory optics, motorized configurations and lighting techniques. Dynamic magnification range of 0.09X up to 393.80X (UltraZoom) can be achieved with different configurations. Field coverage of 0.01-182.72 mm can be obtained and working distance starting at 13mm. Add infinity corrected objective lenses to achieve unmatched edge flatness and clarity.
