ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

NE-1000 Single Syringe Pump

Model: NE-1000
Price: US $750
Part ID: PUMP-NE1000

Description:

- Holds 1 Syringe up to 60 cc*
- Infusion rates from 0.73 µL/hr (1 cc syringe) to 2100 ml/hr (60 cc syringe)
- Easy-to-use keypad interface
- Space Saving Chassis: Foot print size of only 5 3/4" x 8 3/4"
  Won't take up unnecessary space on your laboratory or production bench
- Includes all the advanced functions and programming features of the NE-1000 family

Special Application: Continuous Infusion (Push-Pull) and Dual Syringe Pump

Using 2 NE-1000 pumps attached with a cable, one pump will infuse while the other pump refills or have simultaneous infusion.

Features:

- **Fully programmable;** automation capable
- Operates stand-alone or from a computer
- Infusion and withdrawal
- Set a single pumping rate and/or dispensing volume
- Program up to 41 pumping phases that change pumping rates, set dispensing volumes, insert pauses, control and respond to external signals, sound the buzzer
- Network, control, and monitor up to 100 pumps with one computer

- Worldwide power supplies available
- Motor stall detection
- Dispensing accuracy of +/-1%
- Unlimited lifetime technical support
- Two year warranty

Example Flow Rates (NE-1000):

Syringe Size (cc)	Maximum Rate (mL/hr)	Minimum Rate (µL/hr)
0.5 µL	25.49	0.001
1 mL	53.09	0.73
3	192.5	2.646
5	406.1	5.581
10	600	8.244
20	975.8	13.41
30	1282	17.63
60	2120	29.13

Sample syringe configurations, can hold any size syringes below 60 cc.

Maximum syringe size:

Although a maximum of a 60 cc syringe is specified, the pump can hold up to a 140 cc syringe but can only open up to about 120 cc lengthwise

High pressure notes:

The NE-1000 produces about 15 lbs of linear force at top speed and about 35 lbs at slow speeds. 10 ml/hr is an example of slow speed. The pressure that can be generated is relative to the syringe size. On a 60 ml syringe, this would roughly produce about 30 psi

The high pressure version, NE-1010, will approximately double the pumping force at the same speeds.

NE-1010 High Pressure Variant (Motor Upgrade)

Model: NE-1010
Price: US $830
Part ID: PUMP-NE1010

Example Flow Rates (NE-1010):

Syringe Size (cc)	Maximum Rate (mL/hr)	Minimum Rate (µL/hr)
0.5 µL	91.83	0.001
1 mL	191.2	1.459
3	693.4	5.291
5	1462	11.17
10	2160	16.49
20	3514	26.82
30	4619	35.25
60	7635	58.26

Do you need an upgrade for your Syringe Pump?

Model: FW-1-X

Extra Features: X upgrade is Linear/Gradient flow rate ramping, and additional advanced programming possibilities.

Model: FW-1-X2

Extra Features: X2 upgrade includes all features of the X model plus increases the number of programmable phases from 41 to 340, and increases the max RS-232 baud rate to 38,400

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
