Model 861

Hand-Held Open-Loop Motion Controller

Key Features

- *Convenient control for open-loop CMA-CC actuators*

Ordering Information

Model	Description
861	Hand-held Controller

The 861 Hand-held Motion Controller is a perfect companion for Newport's open-loop CMA Actuators.

The 861 allows open loop operation with adjustable velocity control. This controller has a female "phone-jack" receptacle.

CV1000

Display Counter

Key Features

- *User-selectable units and resolution*
- *Linear error compensation*
- *Reversible encoder direction*
- *Reference position*
- *RS-232-C interface for remote control and transmitting position data to the PC or printer*

The CV1000 Display Counter will count and display encoder pulses when manually driving Newport's stages.

Ordering Information
