Elastomeric Isolation Mount, NewDamp, 70-300 lb., Microlock Compatible

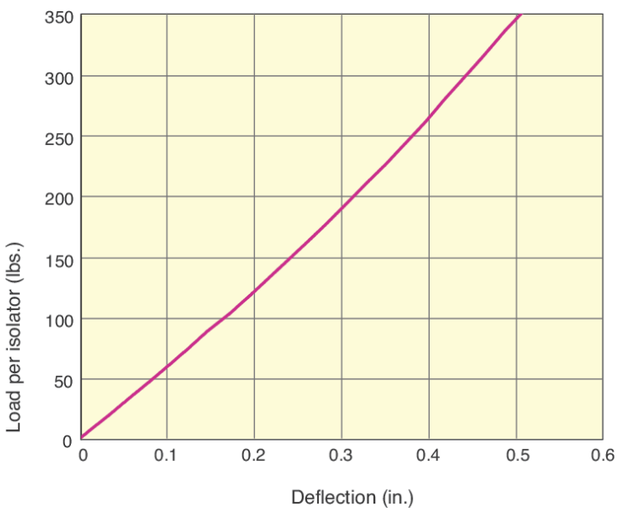

Overview

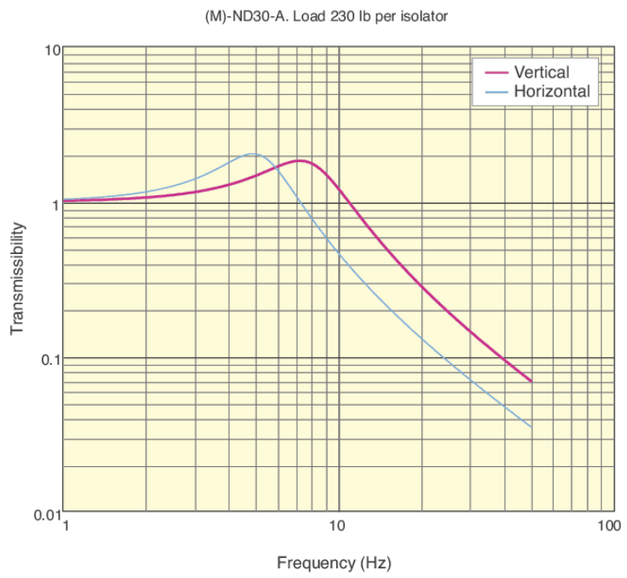

The ND30-A NewDamp Elastomeric Isolator supports 70-300 lb. loads and is based on conical elastic elements providing for a stiffer, higher load in the same envelope as the ND20-A. The ND30-A has a 3.28 inch height and a 4.5 x 4.5 inch base. It provides almost equal isolation in vertical and horizontal directions. By using custom profiled upper supports, these isolators can be easily tuned to particular load/frequency requirements. Breadboard microlock compatible.
