Material Number MA040A4, T45CN-V - Calibrated Needle Valve - Threaded, PVC Schedule 80, FKM

The flow through the 1/4-inch calibrated needle valve can be accurately adjusted by observing the knob handle exposing numerals molded on the valve body. Convenient multi-turn operation allows for precise throttling of manual valve, as well as a positive stop for safe operation. The valve can be easily joined with the threaded end connections. Please refer to Chemtrol technical data sheets, valve selection guides and catalogs for engineering and installation information. PVC Schedule 80
