Express Line LCDs

Arm Mountable Series Now Available - Call For Pricing !!!

Nortech's ***Express Line*** LCD monitors have been engineered using the highest quality components, but geared toward price sensitive applications. Designed for harsh environments, all monitors are NEMA 4 rated when properly mounted. Maximum resolution varies from 800x600 for the 12.1" LCD to 1280x1024 for the 18.1" unit. A key feature of the ***Express Line*** is its ability to be customized with colors and graphics to meet customer or OEM requirements.

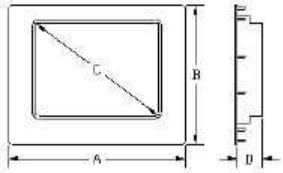

Combined with our commitment to ship within 48 hours of receiving an order, the ***Express Line*** is a unique opportunity for Distributors and System Integrators to offer an OEM product to its customers.

Touch equipped models can be ordered with Resistive or Capacitive technology and clear or anti-glare surface treatment. Serial RS232 or ISA bus controllers can also be specified depending on your application. Software drivers are available for most operating systems.
